ATISN 26-0103 - Doc. 2

Date	**Percentage of scheduled monuments in Wales at risk**
31/03/2013	13.15
31/03/2014	11.38
31/03/2015	11.97
31/03/2016	11.19
31/03/2017	11.35
31/03/2018	11.84
31/03/2019	12.56
31/03/2020	13.68
31/03/2021	13.84
31/03/2022	13.82
31/03/2023	14.12
31/03/2024	13.87
31/03/2025	14.36
31/03/2026	15.01
24/10/2026	15.15

This data is compiled by business year, not by calendar year. The Percentage of scheduled monuments in Wales at risk applies to the entire Scheduled Monument dataset, as at year-end.

Please note that Monuments are normally assessed on a 10-year cycle, not annually. The Fifth Round of condition monitoring was a 12-year period because of national movement restrictions caused by COVID-19: it commenced in 2011 and concluded 2023. At the conclusion of the Fifth Round 14.12% of Scheduled Monuments were considered to be at-risk.
