

National Development Framework: Easy Read questionnaire

Part A – the main points of the NDF

Q1. 1. Do you think we are aiming to do the right things with our plan?

No

Comments:

Some of the proposals can not work. Your idea of collecting people in big urban conurbations is a mistake as all the pollution will be concentrated and harder for nature to clean up. There is more chance for flooding as the water can not run off concrete. If drains are installed they can easily get blocked from a large population. The sewer systems need to be massively enlarged. The roads will not cope with rush hours as they are not big enough, if you build bigger and wider roads that will encourage people to drive more which makes the whole thing stupid as you are trying to cut pollution. Reliable electric cars are some way in the future.

Q2. 2. We have 10 aims in the NDF. Should we think about anything else? Tell us anything we've missed out

Yes

The NDF also needs to think about...

Saving the land for future generations would be a good place to start. People need to be able to experience nature first hand not in a imitation city park. I don't condemn city parks as for some that is their only option. If the land is covered with energy producing machinery where will the food we need be produced. It is often stated that covering Wales in Turbines will not solve the energy problem. Maybe it is time to promote Nuclear.

Q3. 3. Do you think the Plan will help achieve healthy and well-planned places?

No

Comments:

You can not have happy people living in overcrowded cities. People need to see nature.

Q4. 4. Do you think the plan will help us take care of our environment?

No

Part B – different parts of Wales

Q5. 5. Do you agree with our plans for North Wales?

No Response

Q6. 6. Do you agree with our plans for Mid and South West Wales?

No

Comments:

The area you have marked as Mid Wales is not really Mid Wales. I have never heard of Swansea described as being in Mid Wales. Mid Wales being comprised of Powys and Ceredigion depends on tourists as your booklet says, You can't start destroying that industry as to many people rely on it. Their are thousands of little B/B s and riding establishments that will be forced to close if Mid Wales is covered in Turbines.

Q7. 7. Do you agree with our plans for South East Wales?

No Response

Part C

Q8. 8. Do you have any other comments you would like to make about this plan?

Get the areas sorted. Why do the people of Powys feel that the Welsh Assembly does not listen to our local Councillors. When the grass roots people say they don't like something and the Community Council agrees with them and then the County Council also agrees with them and the Assembly appointed Inspector agrees with them, for it to be overridden by the bureaucrats in the Assembly does not leave a nice feeling, Maybe that is part of why people have so little faith in The Assembly. Why do the bureaucrats think we need a 5G mobile phone system. More research needs to be done on the harm that will be done, after all we don't want to mutate they next generation.

Submit your response

Q9. You are about to submit your response. Please ensure you are satisfied with the answers you have provided before sending.

Name Stuart D Hulse

Where are you from?

[REDACTED]

-

Q10. If you want to receive a receipt of your response, please provide an email address.
Email address

[REDACTED]

Q11. Responses to consultations may be made public. To keep your response anonymous (including email addresses) tick the box.

No Response
