1. NDF Outcomes (chapter 3)

The NDF has proposed 11 Outcomes as an ambition of where we want to be in 20 years' time.

- Overall, to what extent do you agree or disagree the 11 Outcomes are a realistic vision for the NDF?

| Strongly agree | Agree | Neither agree nor disagree | Disagree | Strongly disagree | Don't know | No opinion |
|--------------------------|--------------------------|----------------------------|--------------------------|-------------------------------------|--------------------------|--------------------------|
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

- To what extent do you agree with the 11 Outcomes as ambitions for the NDF?

| Agree with all of them | Agree with most of them | Agree with some of them | Agree with none of them | Don't know | No opinion |
|--------------------------|--------------------------|-------------------------------------|--------------------------|--------------------------|--------------------------|
| <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

- If you disagree with any of the 11 Outcomes, please tell us why:

Too great an area for wind/solar development applications – plan should reduce significantly area allocation within Wales. Disproportional

- (1) Plan allows / acceptance of landscape change associated with these projects, (2) but will not allow objections linked to landscape change from public – reverse both decisions.

Spatial Strategy (policies 1 - 4)

The NDF **spatial strategy** is a guiding framework for where large-scale change and nationally important developments will be focused over the next 20 years.

- To what extent do you agree or disagree with the spatial strategy and key principles for development in...

| | Strongly agree | Agree | Neither agree nor disagree | Disagree | Strongly disagree | Don't know | No opinion |
|---------------------------------|--------------------------|--------------------------|----------------------------|--------------------------|-------------------------------------|--------------------------|--------------------------|
| Urban areas (Policies 1, 2 & 3) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Rural areas (Policy 4) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

- If you have any comments on the spatial strategy or key principles for development in urban and rural areas, please tell us:

Rural areas policy 4

Need to substantially reduce area of uplands offered for wind/solar development applications
 Need to consider the existing road network that would be required for these applications
 Need to publish infrastructure routes for projects as these will also significantly impact on landscape too.
 Need to protect what rural areas we currently have.

Do not agree with the "acceptance of change of landscape" linked with these projects, nor the note that objections would be accepted re the point above.

7. Renewable Energy and District Heat Networks (policies 10-15)

- To what extent do you agree or disagree with the NDF's policies to lower carbon emissions in Wales using...

| | Strongly agree | Agree | Neither agree nor disagree | Disagree | Strongly disagree | Don't know | No opinion |
|---|--------------------------|--------------------------|----------------------------|--------------------------|-------------------------------------|--------------------------|--------------------------|
| Large scale wind and solar developments | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| District heat networks | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

- If you disagree with the NDF's approaches to green infrastructure, renewable energy or district heat networks, what alternative approaches should we consider helping Wales to enhance its biodiversity and transition to a low carbon economy?

The proposals for wind/solar farms in this plan are just too vast and not viable. If we want to be power sufficient, then we need to produce what we need, where we need it, in terms of generating for ourselves with individual projects such as the home solar panels, water turbines where we are each responsible for our own needs.

Do not agree with the creation of a Mid and South West Wales region, as it would be disproportionately large in comparison with the size of Wales.

15. Further comments

- Are there any further comments that you would like to make on the NDF, or any alternative proposals you feel we should consider?

There is almost no investment planned for Powys, beyond that in the Growth Deal.

Do not agree with the creation of a Mid and South West Wales region, as it would be disproportionately large in comparison with the size of Wales.
