

National Development Framework: Easy Read questionnaire

Part A – the main points of the NDF

Q1. 1. Do you think we are aiming to do the right things with our plan?

Yes

Q2. 2. We have 10 aims in the NDF. Should we think about anything else? Tell us anything we've missed out

The NDF also needs to think about...

should be looking at low carbon energy sources - the use of the term 'renewable energy' is misleading.

Q3. 3. Do you think the Plan will help achieve healthy and well-planned places?

Not sure

Q4. 4. Do you think the plan will help us take care of our environment?

Not sure

Part B – different parts of Wales

Q5. 5. Do you agree with our plans for North Wales?

No

Comments:

There needs to be much stronger reference to the Snowdonia Enterprise Zone and Anglesey Enterprise Zones. In particular, it should recognise Trawsfynydd as a site of national importance for low carbon energy development and relevant research and development. It should also recognise the strategic importance of the Llanbedr airfield site (part of Snowdonia Zone) as a key location for developing space related activities and for testing low carbon aircraft.

Q6. 6. Do you agree with our plans for Mid and South West Wales?

Not sure

Q7. 7. Do you agree with our plans for South East Wales?

Not sure

Part C

Q8. 8. Do you have any other comments you would like to make about this plan?

The plan ignores the importance of electrical infrastructure. There is no mention how electric vehicles etc can be delivered or of the major electricity infrastructure (grid and local wires) that are needed

Submit your response

Q9. You are about to submit your response. Please ensure you are satisfied with the answers you have provided before sending.
