

# National Development Framework: Easy Read questionnaire

## Part A – the main points of the NDF

Q1. 1. Do you think we are aiming to do the right things with our plan?

No

**Comments:**  
See part B

Q2. 2. We have 10 aims in the NDF. Should we think about anything else? Tell us anything we've missed out

Yes

**The NDF also needs to think about...**  
See Part B

Q3. 3. Do you think the Plan will help achieve healthy and well-planned places?

No

**Comments:**  
We have serious concerns about your proposals for the Isle of Anglesey

Q4. 4. Do you think the plan will help us take care of our environment?

No

**Comments:**  
We have serious concerns about your proposals for the Isle of Anglesey

## Part B – different parts of Wales

Q5. 5. Do you agree with our plans for North Wales?

No

**Comments:**

Four policies in particular are very concerning to residents of Anglesey: Policy 10 – Wind and Solar Energy in Priority Areas Policy 11 – Wind and Solar Energy Outside of Priority Areas Policy 12 – Wind and Solar Energy in National Parks and Areas of Outstanding Natural Beauty Policy 13 – Other Renewable Energy Developments Policies 10 and 11 cover large scale, on-shore wind and solar power, using wind turbines of up to 250 m in height. A section of central Anglesey has been selected to be a "Priority Area" where there is a presumption that developments will be allowed. The Welsh Government is right to focus on renewables, and to set targets for generation from these low carbon sources, but I have the following concerns: 1 - There is no overall economic or energy policy covering all forms of power generation available to the Welsh Government! The proposed developments appear to be trying to meet the whole of Wales efforts to address climate change using only onshore wind and solar, ignoring things like offshore wind, tidal, biomass or nuclear(Policy 10, 11, 12, 13) 2 - The selection of the area to be designated as Priority Area 1 appears to be based on lots of analysis, but the final area seems to have been made up and the explanation in the consultants' report is poor (Policy 10) 3 - The impact on the landscape of Anglesey will be dramatic, turning a low, undulating, agricultural landscape into a "pin cushion" of wind turbines. The impact on the setting of the Anglesey Area of Outstanding Natural Beauty, as well as Snowdonia National Park, will be devastating (Policy 10, 11, 12) 4 - The economic impact of landscape change will result in an "energy zone" of high land values and devalued homes which will not help social issues (Policy 10, 11) 5 - The protective measures of the planning process are vague and could be interpreted to provide no protection at all (Policy10, 11) 6 - The scale and type of generating technology, particularly 250 m high wind turbines over a quarter of the island, is simply not appropriate for an island rarely more than 100 m above sea level (Policy 10, 11)

Q6. 6. Do you agree with our plans for Mid and South West Wales?

Not sure

Q7. 7. Do you agree with our plans for South East Wales?

Not sure

## Part C

Q8. 8. Do you have any other comments you would like to make about this plan?

*No Response*

## Submit your response

Q9. You are about to submit your response. Please ensure you are satisfied with the answers you have provided before sending.
