An update was given on the following Action Points that were not on the agenda for the meeting:

- AP 1 – Helen Snow had drafted a paper investigating the legal arguments as to Welsh Ministers powers with regards to the setting of the overtime rate at 1.5 times the worker’s actual hourly rate. It was currently being checked by colleagues and will be distributed as soon as possible to all Panel members.
- The “headline points” were discussed. It was felt a different interpretation was available to that of Welsh Government Legal Services which is already supported by the provision on holiday pay within the Order. This specifically refers to agricultural workers being paid their “normal rate of pay” when they are on periods of annual leave.

ACTION POINT 1 - Helen Snow to distribute the paper with regards to legal arguments as to Welsh Ministers powers with regards to the setting of the overtime rate at 1.5 times the worker’s actual hourly rate.

- Once the paper has been finalised and agreed it would be submitted to Legal Services asking for their view. A slight rewording of the article was suggested which would be included in the submission. It was stated it would be ideal to have the view from legal Services before the negotiations commence for the 2024 Order.
- AP 2 – Sian Hughes updated the Panel regarding the PhD student placement. The final spec had been sent to the team dealing with placements and was waiting for a response. Once finalised and advertised details would be sent to all Panel members.

ACTION POINT 2 – Sian Hughes to distribute advert details for PhD placement to all Panel members to be promoted through the organisation’s channels.

- AP 3 & 4 – Details of the 2023 Order had been published in various updates

from organisations – TFA, NFU etc. They would be in the May edition of the FUW magazine and an article had also been published in the Welsh Government's Spring Update

- Sian Hughes had also contacted Farming Connect regarding running some campaigns to raise awareness of the Panel and the Wages Order. Further updates would be given once more details were known.

ACTION POINT 3 – Sian Hughes to provide updates to the Panel regarding any Farming Connect campaigns to raise awareness of the Panel and the Agricultural Wages Order.

- AP 6 – The Panel's report had been published on the Welsh Government website for the period 2018 to 2022. Dan Ricketts was currently working on the report for the last financial year (2022/23)

ACTION POINT 4 – Dan Ricketts to produce a draft AAP Report for 2022/23 for the Panel to discuss at the next meeting (June 2023)

- AP 7 & 8 – Dave Thomas stated that advice on the “Panel Effectiveness Review” was going to be submitted to the Minister in the next week or so. She has indicated that a review should be done within the next couple of months and officials would seek her views on the discussions that have already taken place and the proposed two-stage review from the Panel.
- The Chair stated it was important to know what the Minister was envisaging with regards to the review, the resources allocated for undertaking this and what would be required of the Panel.

ACTION POINT 5 – Dave Thomas to update panel members on the “Panel Effectiveness Review” once the views of the Minister have been received.

ACTION POINT 6 – Secretariat to prepare an “information pack” including the remit of the Panel / SDT sub-committee and the Establishment Order 2016 in

preparation for the Stage 1 review session.

- AP10 – Helen Snow gave an update regarding the repealing of retained EU Law and how this may have implications for the Wages Order 2024 and beyond. The UK Government had now abandoned the sunset clause however they also announced there would be some changes to existing employment legislation. The only ones that were potentially relevant to the Order will be changes to the Working Time Regulations although no timescale had been set.
- Helen will include these in her paper outlining any legal changes required for the 2024 Order which will be discussed at the next meeting.

out to the Minister. It will also help the NFU, FUW and Unite when producing their proposals for the 2024 Order.

Jo Galazka said the RIA stated there were minimal employers affected by the rise in the wage rates however all employers were subject to the agricultural minimum wage and so would be affected by any changes. Ivan Monckton added that every article in the Order applied to all agricultural workers so saying that not many employers used the Order was incorrect – whether they paid more than the minimum rates of pay or not.

Item 5 – Real Living Wage Feasibility Study

A scoping paper for conducting a feasibility study had been distributed to Panel members before the meeting.

The Chair had also received a letter from the Minister stating her disappointment the report had not been received or received updates from the Panel regarding their considerations. NLJ had started to draft a response which was shared with members.

ACTION POINT 10 – Nerys Llewelyn Jones to distribute the letter from the Minister plus the Chair's response to Panel members for comments by Tuesday 16 May.

The Panel discussed the Feasibility Study scoping paper. The following points were made:

How does the agriculture sector compare with other Welsh devolved sectors e.g. Health and Social Care?

What would the positive and negative impacts be on the sector as a whole if the Real Living Wage was introduced?

Due to the financial implications three quotes will need to be received in order for the Study to be undertaken.

ACTION POINT 12 – Panel members to pass on any suggestions for suitable people to undertake the Feasibility Study to the Secretariat.

A copy of the feasibility study paper will be sent to the Minister with the Chair's response along with minutes of the meetings where the Real Living Wage has been discussed previously.
