January 2017

Dear

Thank you for your letter of 29 November regarding the A470 and A489 between Newtown and Llanidloes.

We are currently carrying out a wide-ranging investigation to identify locations on the trunk road network in Mid Wales where it may be feasible to modify the road corridor and introduce safe overtaking opportunities. Our investigations are in the early stages and several types of survey are required to establish whether such locations can be engineered with the minimum of environmental impact, within our financial resources and without prejudice to road safety. For these reasons it is too early to be specific on precise locations.

Yours sincerely,

Ken Skates AC/AM
