Official 2

Thank you for taking this request forward. The deadline to release a response to the requester is Friday 27 August 2021.

Nia

This request is asking us to provide proof that WG are working with the UK Government to seek assurance that only those companies who reach specified key performance indicators will be allowed to provide tests.

Official 2 will provide an acknowledgment letter for your consideration and clearance and will work with your team in developing a response.

Robin

Grateful if you could advise on a sensitivity rating for this request please. Seems that there is a bit of interest at the moment around this.

Any problems, grateful if you could get in touch with me as soon as possible.

Kind regards

Official 1

**Subject:** FW: ATISN 15377

All,

To see below. It's only a short email but it contains a potential complaint, a new FOI request and a data subject access request. We can log the latter without much difficulty, but the complaint is trickier. . If (REDACTED – S40) was saying 'I want an internal review' then we'd log and allocate, but (REDACTED – S40) not asking that; (REDACTED – S40) is just stating dissatisfaction. The s45 Code of Practice states:

*It is best practice for each public authority to have a procedure in place for dealing with disputes about its handling of requests for information. These disputes will usually be dealt with as a request for an "internal review" of the original decision. Public authorities should distinguish between a request for an internal review, which seeks to challenge either the outcome or the process of the handling of the initial response, and a general complaint, which should be handled as general correspondence.*

It seems to me the broad options are:

1. Handle as an internal review, or
2. Handle as correspondence to confirm we don't hold information of that description and re-state (REDACTED – S40) options regarding internal review.

Grateful for a steer on how you want to handle (and if it's internal review, who we should allocate it to).

Happy to discuss.

FREEDOM OF INFORMATION REQUEST

Good Morning Mr **(REDACTED – S40)**,

I wish to register a Freedom of Information request for proof of "We are working with the UK Government to seek assurance that only those companies who reach specified key performance indicators will be allowed to provide tests. When we are assured the right systems are in place to protect the Welsh public, we will review the position so that people could access tests from private companies".

I understand that company names may be confidential but i am happy for a redacted set of information.

It is not appropriate in any way for the Welsh administration to obstruct travellers who are performing a perfectly lawful activity.

Yours faithfully

**(REDACTED – S40)**

On 23 Jul 2021, at 11:20, **(REDACTED – S40)** wrote:

**(REDACTED – S40)**

Thank you for your email to the Welsh Government, I have been asked to respond.

Where international travel is essential, Welsh residents must consult the requirements for visitors for any country they plan to travel to. Tests may be required for entry. For anyone planning on travelling to Wales, we continue to require people to take tests before travel and following arrival in Wales. All travellers must take a pre-departure test up to 72 hours before travel and present proof of a negative test to carriers. In addition, travellers must book and pay for mandatory PCR tests to be taken following their arrival to Wales.

Following the changes recently announced relating to amber list countries, fully vaccinated adults and under-18s will need to take a PCR test on or before day two following their arrival in the UK and will no longer be required to self-isolate. Those who are not fully vaccinated will need to continue to take PCR tests on day 2 and on day 8 and to self-isolate for 10 days. Travellers arriving from green countries must take a PCR test on or before day 2.

Fully vaccinated means that you have had your final dose of an approved vaccine under the UK vaccination programme, are taking part in formally approved COVID-19 vaccine clinical trials, or under the age of 18 and resident in the UK. This also applies if you are a resident of the British Overseas Territories who has been vaccinated under a vaccination programme supported directly by the UK Government. You should have had your final dose at least 14 whole days before the date you arrive in Wales. The day you have your final dose of the vaccine does not count as one of the 14 days.

It is critical any positive cases and potentially harmful variants of COVID-19 are identified at the earliest opportunity.

For this reason, for the time being, we require the tests people must take following their arrival to Wales to be provided by the NHS. NHS tests are booked through the CTM web portal. CTM are the booking agent for NHS tests, they are not the test provider. The price for NHS tests is the same across the UK, and is set by the UK Government. NHS tests are processed through the UK Lighthouse Laboratory network, which means we can identify positive cases quickly with results flowing directly to our Test, Trace, Protect system for follow up. Positive results undergo genomic sequencing in our world class sequencing facilities.

There is a list of private test providers on the UK Government's website who offer PCR testing, sometimes at cheaper prices. The UK Government does not endorse or recommend any of these providers. The Welsh Government is concerned about the level of service provided by some of these private providers across a range of issues, including booked tests not being delivered and people not being notified of results. We are determined to protect the Welsh public from companies who do not meet the standards we require.

Protecting public health remains our main priority. We are working with the UK Government to seek assurance that only those companies who reach specified key performance indicators will be allowed to provide tests. When we are assured the right systems are in place to protect the Welsh public, we will review the position so that people could access tests from private companies

If you are not satisfied with my response, you can make a formal complaint in writing, by e-mail or by using a complaint form. Receiving a complaint in writing is particularly important if the complaint is complicated and detailed. However, we may accept a verbal complaint if we consider it reasonable to do so.

You can e-mail the Welsh Government Complaints team at [complaints@gov.wales](mailto:complaints@gov.wales)

You can write to them at Complaints Advice Team, Welsh Government, Cathays Park, Cardiff, CF10 3NQ

Or use the online form <https://gov.wales/complain-about-welsh-government>

You can contact the Complaints Advice team on 0300 025 1378 if you want to make your complaint over the phone. If no one is able to take your call, please leave a message and someone will call you back.

Thank you

**Enquiry:** Ultra Vires conduct by Welsh Government

Hello,

Please direct this communication to whoever deals with legal challenges to the Actions of the Welsh Government.

I intend to raise money via crowd funding to challenge the prima facie abuse of power regarding the failure to recognise other providers of Covid Tests, than just the NHS in Wales.

This is deliberate and blatant abuse of power.

In England the Government recognises many different (cheaper) suppliers of tests for people returning from foreign travel.

The creation of a monopoly of supply in Wales is clearly designed to discourage people from perfectly lawful conduct.

The First Minister has openly admitted that this decision is designed with the purpose of dissuading people from travelling, travel which is perfectly legal to do.

The effort needed to recognise other suppliers of tests is minimal and is in no way a justification for this abuse of power.

It would be far more sensible if this draconian and dictatorial stance were dropped before the Welsh Government incurs legal costs.

Hi Official 7

As discussed, these are the two requests that I mentioned earlier:

- **15377 Testing Agencies** - Requesting proof that WG are working with the UK Government to seek assurance that only those companies who reach specified key performance indicators will be allowed to provide tests. (Nia Roberts)
- **15379 NHS Allocations** - Requesting documents which outline the principles underpinning the new formula for allocation funds along with supporting papers and details of the financial effects at Health Board and Cluster level. (Gareth Havens)

Let me know which one you and Official 2 are going to pick up and I can then issue a commissioning email.
