SCHEDULE 1

The Purposes

The purpose of this funding is to enable you to deliver a project to support the move to a circular economy in Wales - where waste is avoided and materials are kept in use for as long as possible. This is an important part of the action needed on climate change. It also brings many new opportunities as part of the transition to a low carbon economy. The public sector has a key role to play in supporting Wales' move to a circular economy and delivering an enhanced service to the people of Wales.

The Funding must be used for

Newtown as a pioneer reuse and repair economy in Wales – Application Number 330

as set out in your application and must be claimed by 15 March 2021.

The Well-being of Future Generations (Wales) Act 2015 requires you to work in accordance with the sustainable development principle and deliver against the goals, taking into account the impact your decisions could have on people living their lives in Wales now and in the future. This capital funding will help you demonstrate key ways in which you are doing this.

In return for this financial support, you are required to:

- Ensure that the project supports your organisation to progress its activity further up the waste hierarchy by maximising reuse.
- Ensure high quality recycling using source segregated collection methods to comply with future requirements.
- Ensure that staff are suitably trained and supervised in delivering behaviour change in respect of waste prevention, reuse and recycling, to protect the integrity and value of the collected materials.
- Support the local economy through the procurement processes where possible.
- Share lessons learnt with other stakeholders across Wales to enhance community benefits.
- Record and produce a final report containing relevant data or key outputs for evaluation purposes.
