Subject: Ventilation

Hi *[information redacted]*

This is worth a read before we meet

<https://www.housing-ombudsman.org.uk/decisions/rochdale-boroughwide-housing-limited-202002793/>

The query from our tenant partnership is whether Adra and other RSL's have the right to install PIV ventilation systems if the tenants have to pay the running costs

Most RSL's seem to have intalled them on a large scale during WHQS works so we are talking about a historic issue but the current energy prices have led to the concerns re running costs

I think the Intelligent Energy Systems currently required by WG for the ORP fund would create the same concerns as there are running costs with the IES too

Speak shortly
