Summary information relating to the Scheme has been registered with the Commission under reference SA.60371.

## 6. Definitions

In this scheme, the following expressions have the same meaning attributed to them as in the General Block Exemption. For ease of reference these have been replicated below:

### **Aid**

Means any measure fulfilling all the criteria laid down in Article 107(1) of the

Treaty.

## **Aid intensity**

Means the gross aid amount expressed as a percentage of the eligible costs, before any deduction of tax or other charge.

## **Date of granting of the aid**

Means the date when the legal right to receive the aid is conferred on the beneficiary under the applicable national legal regime.

## **Fisheries and aquaculture sector**

As covered by Regulation (EU) 1379/2013 of the European Parliament and of the Council of 11 December 2013 on the common organisation of the market in fishery and aquaculture products, amending Council regulations (EC) 1184/2006 and (EC) 1224/2009 and repealing council regulation (EC) 1004/2000.

## **Large enterprise**

Means any enterprise that is not an SME (as defined in the Commission Recommendation of 6 May 2003 concerning the definition of micro, small and medium-sized enterprises (2003/361/EC))<sup>1</sup>.

## **Operating profit**

Means the difference between the discounted revenues and the discounted operating costs over the economic lifetime of the investment, where this difference is positive. The operating costs include costs such as personnel costs, materials, contracted services, communications, energy, maintenance, rent, administration, but exclude depreciation charges and the costs of financing if these have been covered by investment aid. Discounting revenues and

operating costs using an appropriate discount rate allows a reasonable profit to be made.

## **Primary agricultural production**

means production of products of the soil and of stock farming, listed in Annex I to the Treaty, without performing any further operation changing the nature of such products.

## **Reasonable profit**

Shall be determined with respect to the typical profit for the sector concerned. In any event, a rate of return on capital that does not exceed the relevant swap rate plus a premium of 100 basis points will be considered to be reasonable.

## **Repayable advance**

Means a loan for a project which is paid in one or more instalments and the conditions for the reimbursement of which depend on the outcome of the project.

## **Small and medium-sized enterprises**

Means an enterprise that falls within the criteria and parameters of the definition of micro, small and medium-sized enterprises contained in the [Commission Recommendation of 6 May 2003](#) concerning the definition of micro, small and medium-sized enterprises (2003/361/EC), which took effect on 1 January 2005 (see also the [New SME Definition User Guide and Model Declaration](#)).

## **Start of works**

Means the earlier of either the start of construction works relating to the investment, or the first legally binding commitment to order equipment or any other commitment that makes the investment irreversible. Buying land and

preparatory works such as obtaining permits and conducting feasibility studies are not considered start of works. For take-overs 'start of works' means the moment of acquiring assets directly linked to the acquired establishment.

## **Undertaking in difficulty**

Means an undertaking in respect of which at least one of the following circumstances occurs:

- a. In the case of a limited liability company (other than an SME that has been in existence for less than 3 years or, for the purposes of eligibility for risk finance aid, an SME within 7 years from its first commercial sale that qualifies for risk finance investments following due diligence by the selected financial intermediary), where more than half of its subscribed share capital has disappeared as a result of accumulated losses. This is the case when deduction of accumulated losses from reserves (and all other elements generally considered as part of the own funds of the company) leads to a negative cumulative amount that exceeds half of the subscribed share capital. For the purposes of this provision, 'limited liability company' refers in particular to the types of company mentioned in Annex I of Directive 2013/34/EU (37) and 'share capital' includes, where relevant, any share premium.
- b. In the case of a company where at least some members have unlimited liability for the debt of the company (other than an SME that has been in existence for less than 3 years or, for the purposes of eligibility for risk finance aid, an SME within 7 years from its first commercial sale that qualifies for risk finance investments following due diligence by the selected financial intermediary), where more than half of its capital as shown in the company accounts has disappeared as a result of accumulated losses. For the purposes of this provision, 'a company where at least some members have unlimited liability for the debt of the company' refers in particular to the types of company mentioned in Annex II of Directive 2013/34/EU.
- c. Where the undertaking is subject to collective insolvency proceedings or fulfils the criteria under its domestic law for being placed in collective insolvency proceedings at the request of its creditors.
- d. Where the undertaking has received rescue aid and has not yet reimbursed the loan or terminated the guarantee, or has received restructuring aid and is

still subject to a restructuring plan.

- e. In the case of an undertaking that is not an SME, where, for the past 2 years:
- i. the undertaking's book debt to equity ratio has been greater than 7,5 and
  - ii. the undertaking's EBITDA interest coverage ratio has been below 1,0.

## **7. Objective of the scheme**

To conserve Wales's heritage to the highest standard, to sustain the distinctive character of Wales's landscapes and towns, to help people understand and care about place and history, and to make a real difference to people's well-being.

Welsh Government

## **9. Scope of the scheme**

The scheme will be open to all enterprises in Wales excluding those active in the following sectors:

- Fisheries and aquaculture
- Primary agricultural production
- The processing and marketing of agricultural products where (1) the amount of aid is fixed on the basis of the price or quantity of such products purchased from primary producers or put on the market by the undertakings concerned or (2) where the aid is conditional on being partly or entirely passed on to primary producers.

Where an undertaking is active in both an excluded sector and a non-excluded sector, aid may be given to fund non excluded activities with the condition that activities in the excluded sector do not benefit from aid granted under this scheme.

In addition, aid will not be allowed in the following circumstances:

- Aid to export related activities towards third countries or Member States, namely aid directly linked to the quantities exported, to the establishment and operation of a distribution network or to other current costs linked to the export activity
- Aid to facilitate the closure of uncompetitive coal mines, as covered by Council Decision No 2010/787

- Where aid is subject to the obligation for the beneficiary to have its headquarters in the relevant Member State or to be predominantly established in that Member State
- Where the granting of aid is subject to the obligation for the beneficiary to use nationally produced goods or services
- Aid contingent upon the use of domestic over imported goods
- Where any aid measure restricts the possibility for the beneficiaries to exploit the research, development and innovation results in other Member States.

Aid will not be given where the proposed recipient is:

- Subject to an outstanding order for the recovery of aid granted by the same Member State which has been declared by the Commission to be illegal and incompatible with the internal market, or
- Where aid is granted to an undertaking in difficulty (see definition).

## **10. Duration of the scheme**

Aid under this scheme may be granted until 31 December 2025. This scheme, registered under the General Block Exemption Regulation, will supersede the current Welsh Government Culture and Heritage Conservation Scheme SA.49637.

## **11. Budget for aid under the scheme**

Although there is no defined budget for aid under this scheme, it has been estimated that the total expenditure will be in the region of £75 million.

## **12. Form of aid**

All aid awarded under the scheme will be transparent and in line with criteria set out in Article 5 of the General Block Exemption Regulation. Aid may be awarded by way of:

- grants
- interest rate subsidies
- loans and guarantees
- tax advantages
- risk finance, and
- repayable advances.

## **13. Eligible activities to be supported under the scheme**

The scheme supports Culture and Heritage Conservation activities where the funding is deemed to be State aid. Detailed descriptions of the eligible activities that can be supported are set out in Schedule 1.

The scheme will also provide aid that will not be classed as State aid specifically where support is provided for:

- Non-economic activities – including funding to support open access historical and heritage sites and free localised cultural and historical events
- ‘Local activities’ – including small-scale local interest museums, and
- Organisations which are not undertakings – including support to owners of listed buildings not used for an economic purpose.

An analysis against the State aid criteria as defined in Article 107 of the Treaty on the Functioning of the European Union will be undertaken for each investment as part of the application process.

## **14. Incentive effect**

The incentive effect will be deemed to be met where the aid meets all the conditions set down in Article 53 of Commission Regulation (EU) No 651/2014 of 17 June 2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (General Block Exemption Regulation).

## **15. Cumulation**

In determining whether the individual notification thresholds and the maximum aid intensities are respected, the total amount of public support for the aided activity or project shall be taken into account, regardless of whether that support is financed from local, regional, national or Community sources.

Aid provided under this scheme will not be cumulated with other forms of aid or with aid classed as de minimis aid in regard to the same eligible costs if the result would breach the applicable aid intensities.

A mechanism is in place as part of the application process to ensure that cumulation of aid does not exceed the maximum allowable intensities of the scheme. Due diligence checks will be carried out during the awarding process.

## **16. Monitoring and reporting requirements**

All recipients of State aid under the scheme will be informed that aid has been provided under the scheme, registered under SC10185, pursuant to Article 53 of Commission Regulation (EU) No 651/2014 of 17 June 2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (General Block Exemption Regulation) and its amending Regulation Commission Regulation (EU) No 2017/1084.

Records will be kept for 10 years from the date the last award of aid under the scheme. Records will be sufficiently detailed to establish that the conditions of

the scheme are met.

Details of any award exceeding €500,000 given under this scheme will be made publicly available via a State aid website within 6 months of granting.

An annual report on the expenditure under this Scheme will be provided to the Commission.

The Welsh Government shall provide the Commission with all the information and documentation the Commission considers necessary to monitor the application of this Regulation, within 20 days of such request from the Commission.
