**Subject:** RE: [Commission] Net Zero Strategy JR response - DAs

Good morning, [Redacted information as personal information under EIR regulation 13]

Thank you for the below email. I have discussed this internally and we have agreed that we can only share what we have published in our latest plan, [Net Zero Wales](#). A list of sector definitions can be found at the back of the plan. As you know this plan only goes up to 2025, we are going to begin working with sectors to develop policies and proposals for our next plan covering 2025-2030 and this is due to be published in 2026.

Thanks
