Afternoon REDACTED

When would be a good time to take you through the IVMS Independent Testing report, and its key findings in relation to the Maritime Systems MS44 device ?

Regards

Thanks REDACTED

REDACTED - would it be possible for you to share the final independent testing report with REDACTED specifically for Maritime Systems, and maybe take her through the failures to help Welsh Government understand the implications for the MS44 devices which are now within their fleet.

I am happy to join that call if helpful

Michelle

Hi REDACTED,

Thank you for providing copies of these documents and for the offer to attend your staff meeting in the morning. I'd be grateful if you could share the invite. It may clash

with other meetings in my diary, in which case I will ask my colleague REDACTED to attend, if that's ok?

Please note: The final bullet on your comms document (lines to take) states: "*Fishers are reminded that I-VMS requirements do already exist in Welsh waters, which came into force on 15 February 2023*". Please note that the date stated is incorrect. The Welsh iVMS requirements came into force in February 2022, not 2023.

Could you share a copy of the Maritime Systems testing report with us to enable us to consider whether the device is suitable for use by Welsh fishers?

Many thanks

Hi REDACTED

Thanks for your time again today.

As promised, I am sharing in confidence the letter that hopefully has now been issued to Maritime Systems and our lines to take.

I am more than happy to have a further call with you tomorrow once you have had chance to consider, if you wish you can join our internal staff briefing in the morning - which REDACTED can share the invite.

Thanks again

Michelle
