Good morning REDACTED – you did tell me about REDACTED, and I made a note of it in the control file, but as I haven't received anything from Maritime Systems yet, it is still listed under AST iVMS with a note on the right 😊

Hi REDACTED,

For the sake of completeness, I am aware of the following vessels with Maritime Systems units in progress – this is not to say all these vessels will be giving back their REDACTED unit, this needs to be confirmed, but it is likely (if not a fixed unit).

Also, we are yet to see one of these unit on the water (none are currently merged with the vessels pending installation reports, photos and commissioning - minimum reporting frequency to Themis in a verified location):

If you hear of any others please do let me know, and I will do the same?
