OK thanks,

No harm done – hopefully they will merge them soon.

I did send them onto MMO – but also told REDACTED he needed to speak to MMO as they are their vessels

Further to my email sent this morning below – I have since found emails in our WFMCCMPC inbox which arrived last week relating to these REDACTED vessels. I assume REDACTED sent them to Wales because they were installed to meet reporting requirements in Wales.

Please advise if you plan to merge these beacons, or if you foresee issues given they were supplied by Maritime Systems?

Many thanks,

REDACTED

Subject: UK vessels in Welsh waters need merging

Good morning,

There are REDACTED registered fishing vessels currently active in Welsh waters in the REDACTED. I realise that they have Maritime Systems iVMS units installed – but to allow the vessels to continue fishing please can you merge the Maritime Systems beacons with the vessels concerned.

REDACTED

Any issues please let me know?

Many thanks
