Hi REDACTED

Please see below, REDACTED.

See you Tuesday and hope you had a lovely holiday!

Subject: While I'm on leave...

Hi REDACTED,

While I'm on leave you could you please cover the below work?

iVMS – MMO device testing

REDACTED. I have asked that we be notified prior to any announcement being made. REDACTED. I have let REDACTED know that its our opinion that the Maritime Systems device does not meet our legislative requirements and therefore it is our intention to announce that the device is not suitable for use in Wales once MMO had announced the results of the device testing. In addition to the Welsh fishers that are using Maritime Systems devices, MMO has advised that there are REDACTED English fishers that operate in Welsh waters using this device. They will all need to get an alternative device prior to fishing in Welsh waters again. See attached iShare folder for a copy of the Maritime systems test report.
