

"House 100 yards SE of Tryfail"

I identified the photo labelled as above on last Friday. It is Minafon about 250 metres SW of the listed Tryfal. Since the photo was taken it has had new windows and a another new door – it is clearly not of listable quality. It is also clearly not the house referred to as above in the 1950s list. You will need to do more research into the whys and wherefores of this case I'm afraid!
