Subject: RE: HIW - Memorandum of Understanding - GMC (A54405020)

Good afternoon Redacted s40(2)

Thank you for your email.

I have copied in colleagues from GMC Wales who I believe would be the relevant partners to hold these discussions with. It does appear that our Head of GMC Wales, Redacted s40(2), does hold regular meetings with your Chief Executive currently. Changes to the attendance/frequency of meetings between HIW and GMC can be discussed between you directly following Redacted s40(2)'s next meeting with the CE in October.

We will wait to receive your comments on the MoU, if you require any assistance in the meantime please do let me know.

Kind regards

Hi Redacted s40(2) - Thanks for sending us the updated MoU, and information re. the legislation / role of GMC is changing on 13 December 2024. Given we are in September now, I believe we should wait until December to finalise / sign off i.e. to reflect

Hi Redacted s40(2) - Thanks for sending us the updated MoU, and information re. the legislation / role of GMC is changing on 13 December 2024.

Given we are in September now, I believe we should wait until December to finalise / sign off i.e. to reflect the changes.

Please note I have cc'd in Redacted s40(2) from HIW. Redacted s40(2) has just returned from mat leave, and is our Senior Intelligence Manager for Partnerships so will be the point of contact for the MoU. Thanks for the amendments...we will review, and email back in the coming weeks.

It will be great if we can look at set up some regular meetings, which could be every other month. I am suggesting this as we are looking to strengthen the use of partners intel, and how we use it to help inform HIW's risk based assurance work across the NHS. Redacted s40(2) would be the point of contact for this.

Thanks

Redacted s40(2)

Good afternoon Redacted s40(2)

I hope this email finds you well.

I am writing to attach a marked up version of the draft MoU for your review. You will see that we have made some amendments in tracked changes and there are suggested changes and queries in the comments.

It may be helpful to note that some of the comments relate to whether the MoU will be live after 13 December 2024. This is due to new legislation which will bring Physician Associates (PAs) and Anaesthesia Associates (AAs) under regulation of the GMC; meaning our role will change to that of a multiprofessional regulator on that date. We can keep an eye on the progress of drafting the agreement, as it may be that if the draft is ready close to December 13, it would be better to be held off for a short time until the legislation is live. This means that the agreement would reflect our new role and would not need to be updated with this information at a later date.

If you have any questions feel free to get in touch and I will be more than happy to assist.

Kind regards
