CCC- planning update Nov 24.docx

Hi

Just to give you a heads up on Ceredigion.

Following a discussion I had just over a week ago, the attached note sets out what the officers are doing in terms of progressing projects. Whilst we should, theoretically, seek a withdrawal of their emerging plan, I think we could cut some slack and not formally seek assurance of a new LDP being forthcoming, at the moment. The issues seem minor, the plan, on the whole, is delivering, leading up to an election, my view is not too heavy.

See what you think?

Subject: Ceredigion update

Hi ,

Thanks for meeting with us earlier it was really useful to understand what's going on and thanks for your candour on LDPs etc. Please find attached an update on the various elements of the Ceredigion planning service with a specific discussion over how we are softly engaging in SDP work without the formal submission of a DA as yet. Please let me know if you need anything further from us.

Kind regards
