Yn newid arferion rheoli er mwyn achub bywyd gwyllt

It's for Them

Changing management to save wildlife

Mae amgylchedd naturiol Cymru'n dirywio ac felly hefyd y manteision y mae'n eu cyflawni. Felly, rhaid gweithredu nawr i'w achub. Rydym yn caniatáu i'r fan hon fod yn fwy naturiol.

Caiff ei rheoli a'i thorri bob ychydig o flynyddoedd. Mae'r llystyfiant hwn yn cynnig cartref i anifeiliaid, gan gynnwys adar a phryfed, ar gyfer nythu, magu, bwydo, sicrhau lloches, clwydo a gaeafgysgu.

Rydym yn gwneud hyn er mwyn achub natur.

Wales' natural environment is in decline and so are the benefits that it delivers. We urgently need to take action to save it. We are allowing this area to be more natural.

It will be managed and cut every few years. This vegetation provides a home for animals, including birds and insects, to nest, breed, feed, shelter, roost and hibernate.

We are doing this to help wildlife.
