

## **Distribution Sub Group Terms of Reference 2025**

### **Purpose**

The Distribution Sub Group (DSG) is a technical working group under the Finance Sub Group (FSG) of the Partnership Council for Wales. It exists to consider matters relating to the distribution of the annual local government revenue settlement.

### **Overarching Principles**

The revenue settlement is distributed on the basis of relative need. In undertaking its work, DSG should be guided by the following overarching principles.

- Equity
- Stability
- Clarity
- Relevance

Alongside these principles, consideration should be given to the level of complexity being introduced into the formula and the balance to be struck between additional complexity and the amount of value added to the formula.

The intended outcome for the settlement is summarised as follows.

*The delivery of an equitable, appropriate and accurate distribution of revenue settlement funding to local authorities in Wales which reflects relative **need** and is delivered according to agreed timescales. To be achieved through a partnership relationship with local government and input from independent members, with DSG making recommendations to the Finance Sub Group for formal decisions by Welsh Ministers and approval by the Senedd.*

### **Objectives**

The main objectives of the Distribution Sub Group (DSG) are as follows.

- To propose to the Finance Sub Group (FSG) an annual programme of work to develop the formula for compiling and distributing settlement funding.
- To implement the annual DSG Work Programme, as agreed by the FSG.
- To ensure all data used in the settlement are objective, robust, current and validated and are drawn from reliable, stable and representative data sources.
- To ensure data collected centrally are reviewed as part of a longer term work programme and, where appropriate, to arrange for additional data to be collected.
- To consider distributional matters arising from significant transfers, new responsibilities and all significant changes affecting the distribution of the settlement funding.
- To consider the distributional aspects of specific grant schemes, as appropriate, on a timely basis and in line with the Welsh Government guidance on grants.
- To advise the FSG on matters of stability and multi-year indications as appropriate.
- To prepare an annual report with recommendations for consideration by the FSG.

## Scope and requirements

The main areas of work for the DSG will be set out in its annual work programme, subject to the agreement of the FSG.

It is recognised that it might be helpful for members to share DSG papers outside of the group. Members must make it clear to any additional recipients that papers have been written by WG officials and Ministers have not had the opportunity to comment on the contents. Where there papers are confidential and cannot be shared further, they will be identified by officials when they are sent to the Group

DSG papers have been written by officials of the Welsh Government. Ministers have not had an opportunity to comment on the contents. Exemplifications of changes are provided simply to inform discussion by DSG members. They are not Welsh Government proposals or statements of Government policy for or against changes.

DSG papers (where unrestricted) will be published on the Welsh Government website along with minutes recording decisions, actions and the key points of discussions.
