Subject: RE: PPE briefing

Hi Redacted s40(2),

Redacted s40(2) is on holiday this week. There is unlikely to be any further impact on supply or changes to PPE from this briefing. It is also not a formal briefing via TAC to the CNO/CMO. What is being raised is the move of the extant IP&C guidance to the NIPCM manual which is not capturing all the agreed routes of transmission accurately. I have asked the IP&C cell and all CNOs who are leading on re-activating their manuals to address this asap.
