I'll get back to you about the Ls but N030 is a Class D due to recent movement, proximity above housing, a watercourse and signs of further possible movement (minor).

Morning [REDACTED]

Could you please provide the reports to support changing L044A, L044B and L072D from sandstone to coal? We need to get to a final position on all C and D tips so that winter inspections can commence, but we can't bring these tips into the coal tips regime without adequate evidence that they are coal.

Could you please also advise what category Pen Rhiw House B (the new tips added at Pont Walby) should be please.

Class	Number	Name	Comment (WG or NPT is Accurate)	WG comment	Action
D	L044/ A	Godre'r-Graig Quarry/ Climaengwyn	Missing from WG	WG sandstone	WG / CA change to coal - NPT to share reports with WG

D	N030	Pen Rhiw House - Tip B	NPT - boundary revised. WG is old area	Need to keep old one, so add new	WG / CA to add Pen Rhiw House B, N030B - Dave, what category should this be?

I've recorded that Nant-y-bar / NRW Nant bar should be a category D tip, but what evidence do we have for this? The last inspection report doesn't support this – we will need some evidence before the category can be increased.
