Good morning,

Further to the below clearance, Natural Resources Wales has revised its funding request for the Vale of Glamorgan Bathing Waters Project and Strategic Bathing Water Programme post, increasing the total to £629,000 over two years—£77,000 more than previously approved. This reflects refined planning and a clearer understanding of delivery requirements, ensuring sufficient resources to meet the project's agreed outcomes.

I would be grateful for the DFM's earliest consideration, to allow the project recruitment to be undertaken.
