No [REDACTED] there haven't been any further sightings reported to me. Not sure what was seen by the reporter could have been a domestic moggy or even a dog.

Will get in touch if I receiving any more calls.

SWYDDOGOL OFFICIAL

Good morning [REDACTED]

Thank you for the below. Any further update on the cat?

Kind regards

Subject: big cat sighting

Afternoon

This is for information only :

I had a phone call this morning reporting the sighting of a big cat in Aberystwyth. The cat was sighted from a 1st floor flat window in Queens Avenue this morning around 7.30am. From my understanding the flat looks out on the area of scrub to the north of Queens Avenue. The cat was described as being black and bigger than a domestic cat, about the size of a large dog. The reporter couldn't see the length of the animal's tail as it was sitting. He waited a while for the animal to move which it didn't. The caller then went to the bathroom and when he returned the animal had disappeared.

I informed the reporter that I would record the sighting on our database but wouldn't be taking any further action.

Regards
