Morning all

I had a phone call yesterday from a member of the public who lives in Manchester and is on holiday in north Wales. Her and her family were walking through Fairy Falls woodland, near Trefriw when they sighted what she described as a puma like animal high up on a branch. The animal was light in colour and she thought the same size as a puma. The animal appeared to be asleep.

She emailed a photo and video clips of the animal – attached.

Now I don't think it's a big cat. It just doesn't look right. Could be a wooden carving or a stuffed toy??

Would appreciate if one of North Wales Rural Crime Officers could investigate and report back either to the wildlife inbox or give [REDACTED] a ring – [REDACTED]

Many thanks
