Description			
Hi,			
Grateful if Let's Encrypt vHosts can be created to handle the following redirections:			
sanctuary.gov.wales to redirect to https://www.gov.wales/get-help-if-you-are-refugee-or-seeking-asylum-wales			
www.sanctuary.gov.wales to redirect to https://www.gov.wales/get-help-if-you-are-refugee-or-seeking-asylum-wales			
noddfa.llyw.cymru to redirect to https://www.llyw.cymru/cael-help-os-ydych-chin-ffoadur-neun-ceisio-lloches-yng-nghymru			
www.noddfa.llyw.cymru to redirect to https://www.llyw.cymru/cael-help-os-ydych-chin-ffoadur-neun-ceisio-lloches-yng-nghymru			
The sites are currently live and on 3rd party server infrastructure, I will update the DNS at 16:30 tomorrow (30 June) to point to our App7 redirection server.			
Grateful if the vHost creation can be co-ordinated to minimise downtime within office hours.
