

Fine particulate matter air quality targets

Q1. Question 1a: To what extent do you agree with the level of ambition proposed for the Annual Mean Concentration Target (AMCT)?

Agree

Q2. Question 1b: Please explain your answer

No Response

Q3. Question 2a: To what extent do you agree with the level of ambition proposed for the Population Exposure Reduction Target (PERT)?

Agree

Q4. Question 2b: Please explain your answer.

No Response

Q5. Question 3a: To what extent do you agree with the proposed arrangements for assessing PM2.5 levels and achievement of the targets?

No Response

Q6. Question 3b: Please explain your answer.

There will need to be clear and transparent data on where monitoring is taking place to measure PM2.5 and if modelling is used in its stead. What are we defining as 'a sufficient number of sites'???

Q7. Question 4a: To what extent do you agree with the provision in the draft regulations to allow the subtraction of the 'natural contribution' to particulate matter where exceedances of a target are due in whole or in part to these natural contributions?

Disagree

Q8. Question 4b : Please explain your answer.

There would need to be built in protections that ensure that any subtractions are not overly high and therefore underplay the risks/exposure to the public

Q9. Question 5: We have asked some specific questions. If you have any other relevant thoughts or comments on our proposals, please provide them here.

If the targets help improve air quality, which in Cardiff is particularly bad due to the number of cars on the road, then I fully support their implementation

Submit your response

Q10. Please provide the first part of your home postcode e.g. CF10

[information redacted]

Q11. You are about to submit your response. Please ensure you are satisfied with the answers you have provided before sending.

Name *[information redacted]*

Organisation (if applicable) -

Q12. If you want to receive a receipt of your response, please provide an email address.

Email address

No Response

Q13. Responses to the consultation may be published. Your response will be anonymous.

However, if you would like your name to be published alongside your response, please tick the box.

No Response
