(a) At June in each year. From 1981 figures include minor holdings. In 1998, fundamental changes were introduced to the labour questions on the June Agricultural and Horticultural Census. It appears that this change may have led to the recording of additional labour who were not previously recorded in the returns. The change has also led to a redistribution of labour between the various categories, most notably for salaried managers. We therefore advise caution when comparing the 1998, 1999 and 2000 results with previous years.

- (a) Ym Mehefin bob blwyddyn. O 1981 ymlaen, mae'r ffigurau'n cynnwys mân-ddaliadau. Ym 1998, cyflwynwyd newidiadau sylfaenol at y cwestiynau llafur ar Gyfrifiad Amaethyddol a Garddwriaethol Mehefin. Mae'n ymddangos y gallai'r newid hwn fod wedi arwain ar gofnodi llafur ychwanegol a oedd heb ei gofnodi gynt yn y ffurflenni. Mae'r newid wedi arwain hefyd at ailddosbarthu llafur rhwng y gwahanol categorïau, yn fwyaf arbennig ar gyfer rheolwyr cyflogedig. Yr ydym yn eich cynghori i fod yn ofalus wrth gymharu canlyniadau 1998, 1999 a 2000 â'r blynyddoedd blaenorol.

(a) Figures refer to animals slaughtered in Wales. Therefore, some animals reared elsewhere may be included, and some reared in Wales, but slaughtered elsewhere, may be excluded.

(b) 'Total milk sales off farms' figures are only available up to the end of October because of the division of milk purchaser groups in November 1994.

(c) Figure for eggs is provisional.

(a) Mae'r ffigurau'n cyfeirio at anifeiliaid a laddwyd yng Nghymru. Felly, gall rhai anifeiliaid a fagwyd rywle arall gael eu cynnwys, a gall rhai a fagwyd yng Nghymru ond a laddwyd rywle arall gael eu hepgor.

(b) Mae'r ffigurau 'Cyfanswm gwerthiant llaeth o ffermydd' ar gael tan ddiwedd mis Hydref yn unig oherwydd rhannu grwpiau prynwyr llaeth yn Nhachwedd 1994.

(c) Dros dro yw'r ffigur ar gyfer wyau.

(b) Non-Forestry Commission woodland figures are based on data obtained from censuses of woodlands and adjusted to reflect subsequent changes. For 1970 the figures were estimated from a sample survey carried out in 1965. Between 1980 and 1996, they were based on the results of the 1979-82 census on woodlands and from 1997 they are based on the 1995 National Inventory of Woodlands.
