(a) Gweler y nodyn ar ddatgelu ar y dudalen hon.

In line with the National Statistics Code of Practice and the underpinning Protocol on Data Access and Confidentiality, all vital statistics for 2002 have been disclosure-controlled to protect confidentiality. Thus, all numbers smaller than 5, and all rates based on such numbers, have been suppressed. Secondary suppressions have been applied as necessary to avoid the possibility of disclosure through difference.

Yn unol â'r Cod Arferion ar gyfer Ystadegau Gwladol a'r Protocol on Data Access and Confidentiality, mae'r holl ystadegau bywyd ar gyfer 2002 wedi'u rheoli-rhag-datgelu er mwyn sicrhau cyfrinachedd. Felly, mae'r holl rifau llai na phump, a'r holl gyfraddau sy'n seiliedig ar y rhifau hyn, wedi'u hatal. Defnyddiwyd ataliadau eilaidd lle bo angen i osgoi'r posibilrwydd y gellid datgelu'r rhifau drwy wahaniaeth.

(a) The table is constructed from the estimated population and total deaths in each year and is based on the three year average of the years 2000-2002. The "expected years of life" is the average future lifetime which would be lived by persons of a particular age, if they were subject throughout their lives to the average recorded death rate of the three year period. Such a calculation excludes improvements to the mortality rates over time.

(a) Lluniwyd y tabl o'r amcangyfrif o'r boblogaeth a chyfanswm y marwolaethau ymhob blywddyn ac ar sail cyfartaledd o'r tair blynedd 2000-2002. "Blynnyddoedd oes disgwyliedig" yw'r cyfartaledd oes yn y dyfodol y byddai pobl o oedran penodol yn byw, pe baent yn destun y gyfradd gyfartalog o farwolaethau cofnodedig yn y cyfnod o dair blynedd drwy gydol eu hoes. Nid yw'r cyfrifiad yn cynnwys gwelliannau i'r cyfraddau marwoldeb dros amser.
