- (a) The figures are based on the Agricultural Land Classification one inch to one mile provisional series maps published between 1967 and 1975. The grade boundaries were digitised and areas recalculated in 1996. The proportions are of the total of grade 1 to 5 agricultural land in each authority, and for Wales.
- (b) Grade 1 - excellent quality agricultural land. Land with no or very minor limitations to agricultural use where a very wide range of agricultural and horticultural crops can be grown.
- (c) Grade 2 - very good quality agricultural land. Land with minor limitations which affect crop yield, cultivation or harvesting where a wide range of agricultural and horticultural crops can usually be grown.
- (d) Grade 3 - good to moderate quality agricultural land. Land with moderate limitations which affect the choice of crops, timing and type of cultivation, harvesting and level of yield.
- (e) Grade 4 - poor quality agricultural land. Land with severe limitations which significantly restrict the range of crops and/or level of yield. It is mainly suited to grass with occasional arable crops.
- (f) Grade 5 - very poor quality agricultural land. Land with very severe limitations which restrict use to permanent pasture or rough grazing except for the occasional pioneer forage crops.
- (g) The areas of agricultural land were correct when surveyed in 1967-75. There will be an overestimation due to the size of mapping unit at the time, which excluded small urban and non agricultural areas, and because of subsequent loss of agricultural land to urban, industrial and road development, forestry, mineral extraction, golf courses etc.

- (a) Mae'r ffigurau wedi'u seilio ar y Dosbarthiad Tir Amaethyddol ar fapiau cyfres dros dro un fodfedd i un filltir a gyhoeddwyd rhwng 1967 a 1975. Cafodd cyfres ffiniau graddau eu tro'n ddigidol ac ailygrifwyd yr arwynebedd ym 1996. Y cyfrannau a roddir yw cyfanswm y tir amaethyddol gradd 1 i 5 ym mhob awdurdod, ac ar gyfer Cymru.
- (b) Gradd 1 - tir amaethyddol o ansawdd rago'r. Tir heb fawr ddim neu ddim cyfyngiadau ar ddefnydd amaethyddol lle gellir tyfu amrediad eang iawn o gnydau amaethyddol a garddwrol.
- (c) Gradd 2 - tir amaethyddol o ansawdd dda iawn. Tir â mân gyfyngiadau sy'n effeithio ar faint y cnwd, triniaeth y tir neu'r cynhaeaf, lle gellir tyfu amrediad eang o gnydau amaethyddol a garddwrol fel rheol.
- (d) Gradd 3 - tir amaethyddol o ansawdd dda i gymedrol. Tir â chyfyngiadau cymedrol sy'n effeithio ar y cnydau a ddewisir, amser a math y driniaeth, y cynhaeaf a lefel y cynnyrch o'r cnwd.
- (e) Gradd 4 - tir amaethyddol o ansawdd wael. Tir â chyfyngiadau difrifol sy'n cyfyngu ar amrediad y cnydau a/neu gynnyrch y cnwd. Yn addas yn bennaf at dir glas ac ambell gnwd âr.
- (f) Gradd 5 - tir amaethyddol o ansawdd wael iawn. Tir â chyfyngiadau difrifol sy'n cyfyngu'r defnydd i dir pori parhaol neu garw ac eithriad ambell gnwd porthiant.
- (g) Yr oedd yr arwynebeddau tir amaethyddol yn gywir adeg eu harolygu ym 1967-75. Bydd goramcangyfrif oherwydd maint yr uned fapio ar y pryd, a oedd yn hepgor arwynebeddau bach trefol ac anamaethyddol, ac oherwydd colli tir amaethyddol ers hynny o ganlyniad i ddatblygiad trefol, diwydiannol a datblygiad ffyrdd, coedwigaeth, cloddio am fwynau, cyrsiau golff etc.
