GB Tourist 2014

Volumes and Values of Domestic Tourism in Great Britain – 2014

Tourism by residents of Great Britain in 2014: this report presents the principal findings of the Great Britain Tourism Survey (GBTS). This survey replaces the previous United Kingdom Tourism Survey (UKTS).

GBTS is jointly sponsored by VisitEngland, VisitScotland and Visit Wales (the Tourism Department of the Welsh Government).

Introduction

This report is the twenty-sixth in an annual series, published to present statistical information on the volume and value of domestic tourism. Previously, this has focussed on tourism undertaken by the resident population of the United Kingdom to destinations within the UK and the Republic of Ireland. Since 2011 the scope has covered only the resident populations of Great Britain (England, Scotland and Wales) and trips within these jurisdictions. Northern Ireland data is collected in a separate survey by Northern Ireland Tourist Board.

Consequently, special care must be taken when interpreting trends in domestic tourism to ensure that a consistent base is used throughout. In this case, all pre-2010 data has been recalculated to exclude Northern Ireland as a destination and also to exclude all tourism into Great Britain by Northern Irish residents from the analysis. This provides a consistent basis for trend analysis but means that the data published for 2006-2010 in this report is different from that published in previous editions of 'The UK Tourist', prior to 2011.

All information in the 2014 report comes from a face-to-face interview survey commissioned jointly by the national tourist boards, VisitEngland (VE), VisitScotland (VS) and Visit Wales (the Tourism Department of the Welsh Government). The joint survey is called the Great Britain Tourism Survey (GBTS).

Under its previous guise of the United Kingdom Tourism Survey (UKTS), this was first conducted in 1989 and replaced earlier surveys which the national tourist boards had used to obtain estimates of domestic tourism volume and value. Until 1999, the survey was based on in-home interviews with adults, mainly using a random omnibus survey conducted by NOP Research Group. This survey vehicle for UKTS was discontinued at the end of 1999. A review was then undertaken to select a new research methodology, while maintaining a high degree of consistency in the key principles of the survey design.

In 1999, a five-year contract covering the period 2000-2004 was awarded to BMRB International and in 2000, UKTS switched to a new research methodology based on telephone interviews using random digit dialling. By 2003 and 2004 however, significant concerns were being expressed relating to the UKTS derived data on domestic tourism. Following a further extensive review, UKTS returned to the previous (pre-2000) methodology for measuring the volume and value of domestic overnight trips: face-to-face interviews conducted in-home. TNS was appointed to undertake the survey from May 2005 and for the period 2006 – 2010. The sponsors (the various UK national tourism organisations) concluded that the approach proposed by TNS would yield a more representative sample of the UK population by using a proven face-to-face interview approach instead of the previous random digit dialling telephone approach.

In 2010, TNS was re-appointed to undertake the survey for a further five years from 2011-2015. With the removal of Northern Irish residents and Northern Ireland as a destination from the scope, the survey was re-launched as the Great Britain Tourism Survey. The approach remains identical to UKTS 2006-10 however:

- 100,000 face-to-face interviews per annum, conducted in-home, more than twice the sample size featured in the previous telephone based survey methodology
- A weekly sample size of around 2,000 adults aged 16 years or over – representative of the GB population in relation to various demographic characteristics including gender, age group, socio-economic group, and geographical location
- Respondents are asked about any overnight trips taken in the last four weeks, as opposed to a 12-weeks' recall period (covering the three preceding calendar months) under the previous methodology

- The questions were first added to TNS's Omnibus survey on 4th May 2005 and the survey outputs provide continuous data from May 2005 for total number of trips, nights spent, breakdown of expenditure, purpose of trip, accommodation used and party composition on each trip by destination

Because of these changes in methodology, the GBTS/UKTS results gathered since 2005 are not comparable with those from previous years. In addition, given that the survey fieldwork did not begin until May 2005, no survey data was collected for the first four months of the year, January-April. Consequently, the survey data for 2005 is 'part-year' in nature – only covering the May-December period. Comparative data is therefore restricted to 2006 only. All of the 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013 and 2014 data covers the full 12-month period, allowing for valid comparison.

Objectives

The first objective of GBTS is to provide measurements of tourism by residents of GB, in terms of both volume and value. The second is to collect details of the trips taken and of the people taking them.

These objectives extend to:

- Tourism by people of any age. The core survey is based on adults but collects details of all adults and children present on the trip
- Tourism for any purpose. Although the report places considerable emphasis on the important holiday sector, this is not just a holiday survey. Also included within the scope is tourism for the purpose of visiting friends and relatives, for work or business purposes, conferences and exhibitions, or indeed almost any other purpose
- Day excursion trips, not involving an overnight stay away from home, are not covered by the survey at all
- Tourism to any part of GB, using any accommodation type

GBTS is designed as a continuous measurement of the volume and value of domestic tourism by residents of GB, in such a way as to provide absolute estimates at any point in its currency and relative change over time. Three separate but associated measurements are required from the survey:

- The number of trips (including child trips) taken by GB residents
- The number of nights (including child nights) spent away from home on these trips
- The value of spending on those trips

In summary, for the purposes of this survey, tourism is taken to be any journey away from home lasting one or more nights, to any destination within GB, by any mode of transport, for any purpose, and staying in any type of accommodation. These topics of destination, purpose, mode of transport, accommodation type and many others, are included in the information collected by the survey, in order to provide meaningful analysis and descriptions of the volume and value estimates.

Using previous methodologies, an upper limit of 60 days was applied to the number of nights spent away from home to qualify as a tourism trip. As respondents are now asked about trips returned from in the four weeks prior to interview, this upper limit is now redundant and no longer applied.

It is worth noting that despite this, results are reported on the basis of the start date of the trip.

Scope of this report

This document is intended to provide all of the information necessary to form an overview of the total GB domestic overnight tourism market. The reader will therefore find details of familiar subjects such as purpose, destination, accommodation, transport and month of trip. Also included are other subjects such as methods of booking or arranging travel and details of the types of location stayed at while away from home.

Inevitably, a publication of this size is selective. The 'core' results of each year's GBTS run into thousands of pages of computer tabulations, which are held by the sponsoring boards. Beyond these core tabulations, further computer analysis can provide – subject to technical limitations – any permutation of any number of parameters contained in the survey, in order to produce data on specific market sectors not already analysed. Survey results not published in this report are available from any of the sponsoring boards. Further information and details of costing can be obtained from any of the survey sponsors, at the addresses shown at the back of this report.

For 2011 to 2014, a similar report has been produced from the Great Britain Day Visits Survey (GBDVS) covering same day tourism. For comparability and consistency, results have been presented in a similar format in both the 'GB Tourist' and the 'GB Day Visitor'.

Survey method

The GBTS survey is conducted continuously throughout the year, using face-to-face Computer Assisted Personal Interviewing or CAPI, as part of TNS's in-home omnibus surveys. Weekly omnibus surveys are conducted with a representative sample of 2,000 adults aged 16 and over within GB. Respondents are asked whether they have taken trips in Britain in the previous four calendar weeks that involved at least one night away from home.

When such trips are identified, further questions are asked about a maximum of three trips – the most recent three trips – with a core set of questions for all three trips and additional questions for the most recent trip. The questionnaire is thus designed to maximise accuracy of recall, whilst minimising the task for those who have undertaken more than one trip.

The requirement is for a complete dataset for each of the three most recent trips. Therefore, some imputation is necessary and that imputation covers data not collected, or otherwise missing.

The results are reported in terms of total GB population values. Therefore the data are weighted to correct for differences between the sample distribution and that of the population and also to gross the sample values up to the total population.

Reporting periods are defined in terms of groups of weeks. Results published from the data are for trips that started in each calendar month.

The sample design is based on a master sample frame which divides GB into 600 sample points, with a further five sample points north of the Caledonian Canal. The TNS omnibus survey operates using two sets of points which are used on alternate weeks. Each set consists of 162 points within GB. These sets of points are further split into four levels of 118, 133, 152 and 162 which are used depending on the interview length. Sampling points are selected after stratification by Government Office Region and Social Grade. Each sample point is divided into geographical halves. Selected addresses from the point are taken from one half the first time it is used and from the other half when it is next used. This provides for de-clustering or geographical dispersion week on week. Within each point, 130-200 addresses are issued

from the Postal Address File and these consist of one or more Output Area. Depending on the interview length, a target to achieve an adult sample of 13 to 18 completed interviews is set (12 to 15 in London).

Interviewer assignments are conducted over two days of fieldwork and are carried out on weekdays between 2pm-8pm and/or at the weekend. Interviewers are issued with quota targets based on gender, working status and presence of children. All interviewers must leave three addresses between each successful interview.

On average 2,000 interviews are conducted each week, some 100,000 interviews per year. Interviewing is not normally conducted during the two weeks either side of Christmas. The weighting procedures are amended to compensate for these missing weeks.

Please note that in the fourth quarter of 2014 there were fewer than 2,000 useable interviews in some weeks. This was due to fieldwork taking longer than expected, and therefore some interviews were not conducted in the intended week. This resulted in base sizes for October, November and December 2014 being smaller than for the same months in previous years, and therefore the base sizes for the whole of 2014 are also smaller than previous years. A more detailed explanation of the fieldwork issue is contained in the GBTS 2014 Methods and Performance Report.

It was decided to retain the question wording used in UKTS from 2005-2010 to ensure consistency of data collection (see below). However, subsequent trip details are only collected for trips taken within GB in the preceding four weeks. The questionnaire reads:

"We would like to ask you about overnight trips you have taken in the UK and Ireland recently. We are interested in ALL overnight trips taken for whatever reason, including holidays, visits to friends and relatives, business trips and so on.

Q1. Have you returned from any trips in the past four weeks that involved staying away from home for one night or more at a destination within the UK or the Republic of Ireland?

In this survey, by the UK, we mean anywhere in England, Scotland, Wales, Northern Ireland, the Channel Islands, the Isle of Man or any of the other islands which are part of the United Kingdom.

The four weeks we are talking about are from Monday (day/month) through to last Sunday (day/month).

Please include any trips taken where the main destination was abroad but where you stayed away from home in the UK or Ireland as part of that trip."

It should be noted that although the questionnaire (at Q.1) clarifies to the respondent that the Channel Islands and Isle of Man are included within the United Kingdom, all parties involved with the survey are aware that these islands have federacy status and are not part of the United Kingdom.

The change in the method of data collection from telephone interviewing to an in-home face-to-face approach utilising TNS's weekly Omnibus survey in May 2005, necessitated a review of the questionnaire to adapt it for CAPI use. In addition, the client group was keen to rationalise the length of the questionnaire and remove questions no longer deemed essential.

This report

Section 1.1 – 2014 general trends – this section interprets some of the key differences in domestic tourism in 2014 when compared to 2013.

Section 1.2 – 2014 full year summary – an in-depth summary of domestic tourism during 2014.

Section 1.3 – 2010-2014 trends in domestic tourism – this section focuses on trends during the previous five years, examining GB holiday, visiting friends and relatives (VFR) and business tourism. Also included within this section are the following:

- Trends in expenditure over the period, including a detailed breakdown of expenditure by the different spend categories of a trip i.e. accommodation, travel etc.
- GB holidays by lifestage – this section looks at domestic holidays in Britain during the 2010-2014 time period, when analysed by different lifestage segments (Families, Empty Nesters etc.)
- All spend figures quoted throughout the report are presented as historic prices and do not take inflation into account, with the exception of tables 1.1.1 to 1.1.4, where the spend figures have been adjusted to account for inflation

Section 2

A much more in-depth understanding of the characteristics of domestic tourism in GB.

The GBTS reports in terms of trips, nights and spending:

- Trips are trips or journeys away from home involving an overnight stay, taken by adults aged 16 and over and accompanying children aged up to 15. It should be noted that each adult or child present on the trip counts as a trip. Thus a family of two adults and two children taking a trip away would count as four trips
- Bednights are the number of nights away taken by adults and accompanying children on these trips. Each night away spent by an adult or a child present on the trip counts as a night. Thus, a family of two adults and two children taking a three night trip away from home would count as 12 bednights
- Spending is the expenditure relating to these trips. It includes costs paid in advance of the trip, costs paid during the trip itself and also any bills relating to the trip received after returning home. It covers costs paid by adults on the trip for themselves and on behalf of others on the trip, including children. It also includes costs paid on behalf of the person taking the trip, such as an employer paying the cost of a business trip
- Two further points about spending may be helpful:
- average expenditure per night is calculated by dividing the total trip costs by the number of nights. The total trip costs include those which are paid in advance of the trip (such as travel and inclusive package trip charges) as well as costs incurred on a daily or nightly basis during the trip
- analysis of expenditure by country of destination allocates all trip costs to the country of destination, although in reality some of these costs may be paid in the country of residence rather than the country of destination

For simplicity, absolute volumes and values have been rounded. The degree of rounding is generally self-evident in the tables, but where appropriate, an explanatory note has been added for clarity. The appendix contains a detailed set of definitions of terms used in the report.

Part 2 – Interpretation

GB Tourist 2014

Part 2 – Interpretation

Section 1.1 – 2014 general trends

Tourism in Great Britain in 2014

The tables below and overleaf show that during 2014 the overall volume of trips taken in GB fell by -7% to 114.2 million. The number of bednights spent during GB trips in 2014 decreased by -6% to 349.5 million. Along with the decline in trips since 2013, the amount of expenditure on GB trips in 2014 has also fallen by -3% to £22.7 billion. The volume of trips taken for holidays reflects the decline seen at an overall level, having dropped by -7% to 52.9 million. Visits to friends and relatives dropped by -4% to 42.5 million and there was also a decrease in the volume of business trips taken within GB to 15.9 million trips (-11% compared to 2013).

England trips, nights and expenditure

92.6 million domestic overnight trips were taken in England during 2014, with 273 million bednights and spending of £18.1 billion. These are decreases on 2013; trips were down -9%, bednights dropped by -8% and expenditure by -3%. The number of holiday trips fell back to levels similar to those seen prior to the peak of 2009. At the same time, the number of trips to visit friends and relatives also fell, to a level similar to that of 2010.

2014 saw two periods of growth and seven periods of decline in the number of visits within England. March was the month with the biggest decline, due to the move of Easter from March in 2013 to April in 2014. The summer and second half of 2014 saw a significant reduction in the number of trips taken in England.

Scotland trips, nights and expenditure

In Scotland, 12.5 million domestic tourism trips were taken during 2014, with 41.6 million bednights and expenditure of £2.9 billion in spend. These figures are similar to those seen in 2013 – trips increased by +3%, bednights decreased by -3% and expenditure was unchanged.

Declines were evident in five months during 2014, with the most notable being January. Conversely the final quarter witnessed substantial growth and there were four months with increases.

Comparing 2014 as a whole to previous years, overall overnight domestic tourism within Scotland remained at similar levels to recent years, although somewhat below the peak of 2011. The number of holiday trips also remained at a level similar to recent years. In 2014 VFR trips recovered to the levels seen in 2011 and 2012, after a quiet year in 2013.

Wales trips, nights and expenditure

In Wales, during 2014, some 10 million domestic tourism trips were taken, staying for 35 million bednights and spending £1.7 billion. These figures are all at the peak or close to the peak seen for Wales in the past nine years. This was driven by growth in the number of both holiday and VFR trips during 2014. Compared to 2013, the number of trips made and the bednights increased year on year (+1% and +4% respectively), and the expenditure remained unchanged.

In 2014 Wales had mostly small changes each month compared to the same period the year before. The exceptions being declines in June and August and increases in April and Quarter 4. The substantial increase in April being due to the move of Easter from March in 2013 to April in 2014.

Figure 3 – % change in volume of domestic trips in Wales – 2013 versus 2014

Completing the picture

It is important to understand the performance of domestic tourism – and particularly domestic holidays, within the broader context of holiday taking by GB residents generally – both at home and overseas. Since the success for domestic holidays seen in 2009, the volume of trips taken within GB has fluctuated. In 2012 the level of domestic trips levelled off, with a year on year reduction of -1% in both 2012 and 2013. However, in 2014 the reduction was -7%, similar to the decline in 2010.

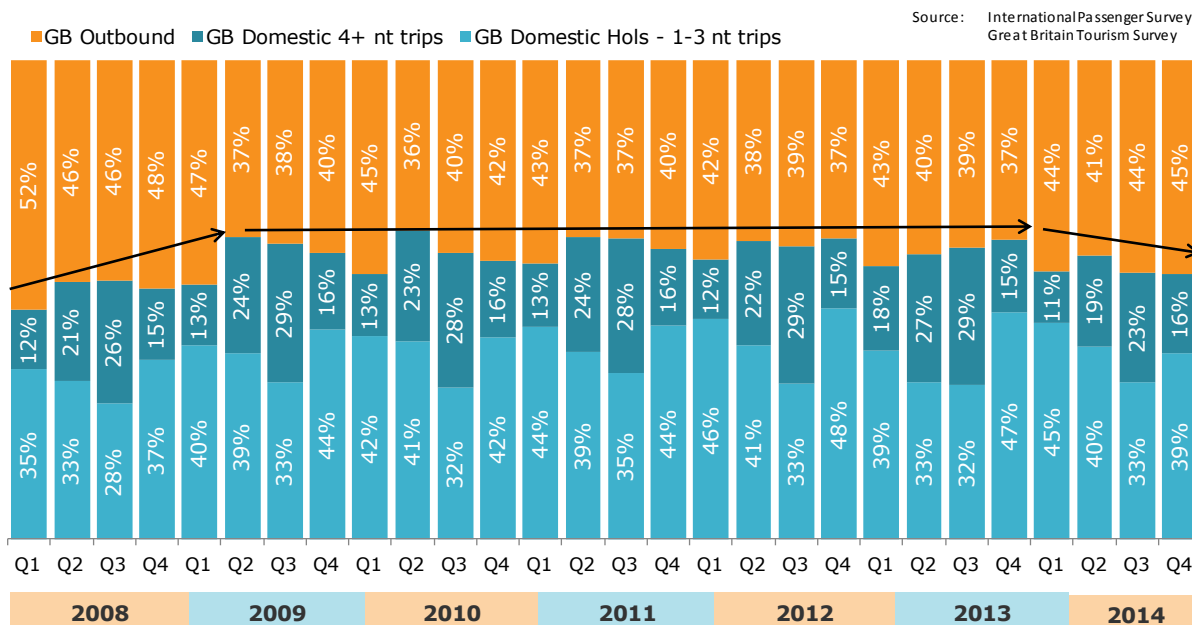

The number of overseas trips taken declined sharply from 2008 to 2010, dropping from 46 million to 36 million. In 2011 the decline halted and in 2014 increased back to 2009 levels.

Table 1.1.5 – Holiday trip taking by GB residents

Destination	GB residents' holiday trips in GB		UK residents' holiday trips overseas*	
	Total trips (m)	% change on previous year	Total trips (m)	% change on previous year
2008	50.416		45.531	
2009	58.973	+17%	38.490	-15.5%
2010	54.472	-7.2%	36.126	-6.1%
2011	58.433	+6.7%	36.356	+0.6%
2012	57.696	-1.3%	36.364	0.0%
2013	56.969	-1.3%	36.932	+1.6%
2014	52.903	-7.1%	38.519	+4.3%

* Source: 2014 International Passenger Survey (Please note: Data for UK residents)

Consequently, as illustrated below, the share of domestic holidays vis-a-vis outbound holidays has reduced during 2014 from around 60% in 2013 to 55% by the end of the year.

Section 1.2 – 2014 full year summary

Tourism volumes and values in 2014

It is estimated that in 2014, GB residents took around 114 million trips of one night or more within GB. These trips involved a total of 350 million nights away from home, resulting in an average tourism trip length of three nights.

Tourism expenditure on these domestic trips was around £23 billion, representing an average spend of £199 per trip and £65 per night away from home.

By relating these levels of tourism volume and value to the total population, the average level of tourism per head of population can be calculated.

In 2014, the average GB adult resident:

- Took 1.8 tourism trips of one night or more away from home within GB
- Stayed away from home for approximately three nights per trip
- Spent in the region of £199 per trip

Tourism destinations

This section looks in detail at tourism in GB, and compares the performance of England, Scotland and Wales as destinations.

Over four out of five (81%) British trips taken during 2014 were taken in England (92.6 million). Scotland saw 12.5 million trips during 2014 and a 11% share of British trips, while there were 10.0 million trips taken in Wales, with a share of 8%.

Table 1.2.1 – Tourism trips in GB by country

Destination	Trips	Share of trips
	Millions	%
GB total	114.242	100%
England	92.613	81%
Scotland	12.519	11%
Wales	10.002	8%

It should be taken into account that the proportion of trips taken within each nation is largely commensurate with the size of its respective populations. When looking at the proportion of trips taken compared to each nation's population as part of Britain, England has a smaller share of trips taken than its share of the overall population, while Scotland and Wales both have a higher proportion of GB trips taken when compared to their population share.

Table 1.2.2 – Tourism trips compared with population

Destination	Population		Trips	
	Millions	%	Millions	%
GB total	62.757	100%	114.242	100%
England	54.317	87%	92.613	81%
Scotland	5.348	9%	12.519	11%
Wales	3.092	5%	10.002	8%

Source: June 2014-based national population projections, office for national statistics

Tourism trips taken in Britain during 2014 were around 3.06 nights' duration on average. The average length of trips taken in Scotland and Wales was longer, with 3.32 nights for Scottish trips and 3.51 nights being spent on trips in Wales.

Table 1.2.3 – Tourism nights in GB by country

Destination	Nights Millions	Share of nights %	Average nights per trip
GB total	349.546	100%	3.06
England	272.859	81%	2.95
Scotland	41.609	12%	3.32
Wales	35.078	8%	3.51

With regard to spending on tourism trips, domestic British trips cost on average around £199. Scotland saw slightly higher trip values, with trips costing on average £229. Trips to Scottish destinations typically see higher spend figures as they tend to be longer than trips taken elsewhere and involve longer journeys. Trips to Wales had the lowest average spend, with trips costing on average £173, despite longer trip lengths (3.51 nights per trip on average). Therefore, spending per night is notably lower in Wales than in England and Scotland.

Table 1.2.4 – Tourism spending in GB by country

Destination	Spending Million	Share of spending %	Average spend per trip	Average spend per night
GB total	£22,692	100%	£198.63	£64.92
England	£18,085	81%	£195.27	£66.28
Scotland	£2,871	12%	£229.33	£69.00
Wales	£1,735	8%	£173.47	£49.46

Purpose by destination

This section illustrates the primary purpose of tourism trips taken by British residents within GB in 2014 – be this for a holiday, visiting friends & relatives or travelling for business and work.

Trips taken as a holiday tend to make up the greatest proportion of overnight British trips, with most of these being shorter trips of 1-3 nights in length. There are some variations between the nations, however, and for Wales the proportion of Total Holiday trips (including VFR-Holidays) is notably higher than for England and Scotland (78% versus 66% for England and 69% for Scotland). Trips in Scotland and Wales were also more likely to be longer (4+ nights) than those taken in England, comprising 23% and 30% respectively of trips taken, compared to 20.7% in England.

Trips for the purpose of visiting friends and relatives (VFR) were taken more often in England, where 38% of trips were taken for this reason compared to 32% in Scotland and 30% in Wales.

During 2014, Wales saw a smaller proportion of business trips than England and Scotland (7% versus 17% in both England and Scotland).

Table 1.2.5 – Trips in GB by purpose

	England	Scotland	Wales
Purpose	Million	Million	Million
Total	92.613	12.519	10.002
Total holiday (including VFR-holiday)	63.003	8.867	7.972
1-3 nights	43.535	5.754	4.744
4+ nights	19.468	3.113	3.227
Holiday	40.740	6.302	6.357
VFR	35.908	4.036	2.839
VFR-holiday	22.263	2.565	1.615
VFR-other	13.645	1.471	1.224
Business/work	13.547	1.921	0.574
Purpose	% share	% share	% share
Total	100%	100%	100%
Total holiday (including VFR-holiday)	66%	69%	78%
1-3 nights	46%	46%	48%
4+ nights	20%	23%	30%
Holiday	42%	49%	61%
VFR	38%	32%	30%
VFR-holiday	23%	20%	17%
VFR-other	15%	12%	14%
Business/work	17%	17%	7%

Bednights show similarities with the analysis of trips across the different countries. As noted above, Scotland and Wales have a higher share of nights than trips, driven by a longer average trip length (3.51 nights for Wales and 3.32 nights for Scotland versus 2.95 nights per trip to England). This longer average length is mainly due to the higher share of trips accounted for by longer holidays in Scotland and Wales.

Table 1.2.6 – Nights in GB by purpose

	England	Scotland	Wales

Origin and destination of trips

This section examines the origin of trips, meaning the GB countries in which those who are taking the tourist trips are normally resident.

Residents of England took 97 million trips in 2014, a share of 84% of all British trips, while those from Scotland took close to 10 million and Welsh residents almost 7 million trips.

The share of trips taken by residents of each nation is broadly in line with their share of the British population, as the average number of trips being taken by residents is fairly similar – averaging around two trips per resident across each of the British nations.

Table 1.2.8 – Trips taken by country of residence

Residents of...

	GB	England	Scotland	Wales
Trips taken (million)	114.242	97.335	9.979	6.928
Share of trips taken (%)	100%	84%	9%	6%
Resident population (million)	62.757	54.317	5.348	3.092
Share of population (%)	100%	87%	9%	5%
Average number of trips taken per resident	1.82	1.79	1.86	2.24

British residents spent on average just under six nights away on GB trips in 2014 (across the 1.8 trips average taken, as mentioned above) and spent on average £362 on these trips overall. Scottish and Welsh residents spent slightly more nights away than English residents (5.94 compared to 5.51). Scottish and Welsh residents also spent considerably more on trips each year, with an average of £425 and £435 respectively.

Table 1.2.9 – Nights taken & spending by country of residence

Residents of...

	GB	England	Scotland	Wales
Nights away (million)	349.55	299.40	31.77	18.37
Average number of nights taken per resident	5.57	5.51	5.94	5.94
Spending (£ million)	£22,692	£19,069	£2,277	£1,345
Average spend per resident (£)	£362	£351	£425	£435

The relationship between the country of origin and the country of destination for trips is shown in table 1.2.10.

Note: a small number of tourist trips have more than one destination – for example, a holiday to more than one country, or an overnight stay in one country en route to another.

Table 1.2.10 – Destination of trip by country of residence (number)

Residents of...

Trips	GB	England	Scotland	Wales
Destination	Million	Million	Million	Million
GB	114.242	97.335	9.979	6.928
England	92.613	85.020	3.482	4.111
Scotland	12.519	5.569	6.516	0.435
Wales	10.002	7.442	0.044	2.517

Nine out of every ten trips taken by English residents were within England, with the remainder being evenly split between trips taken in Scotland (6%) and Wales (7%). While residents of Scotland were most likely to take trips within their own nation (65% of trips taken by Scottish residents were in Scotland), one third were taken in England (35%). In contrast to England and Scotland, trips made by Welsh residents were most likely to have been taken outside of their home nation with three fifths being taken in England (60%). Just over a third of trips taken by Welsh respondents were in Wales.

Table 1.2.11 – Destination of trip by country of residence (share by origin)

Residents of...

Trips	GB	England	Scotland	Wales
Destination	Million	Million	Million	Million
GB	100%	100%	100%	100%
England	81%	88%	35%	60%
Scotland	11%	6%	65%	7%
Wales	8%	7%	*	35%

Note: *= less than 0.5%

In the tables below, both bednights and spending show similar patterns to one another when looking at share by destination:

- English residents generate 88% of trips, 91% of nights and 89% of spend on domestic trips taken in England
- For Scottish residents, equivalent figures for trips in Scotland are 65% of trips, 46% of nights and 41% of spend
- And for Welsh residents, the proportions are 35%, 17% and 18% respectively

The further people travel, the more nights they are likely be away and the higher their spend is likely to be. Therefore, people taking a trip outside their country of residence will tend to account for a higher proportion of nights and spend, and those taking a trip within their country of residence will make up a lower proportion of nights and spend.

Table 1.2.12 – Destination of nights by country of residence (number)

England	100%	89%	6%	5%
Scotland	100%	56%	41%	3%
Wales	100%	81%	1%	18%

Table 1.2.16 presents analysis of the extent to which each country is a net 'winner' or 'loser' in terms of domestic tourism. For example, if residents of country X take 10 trips outside country X, in countries Y and Z, but 12 trips are taken in country X, by residents of countries Y and Z then country X has a net gain of two trips.

Both Scotland and Wales have more domestic tourism trips, nights and expenditure from elsewhere in Britain than residents of those countries who take trips to other parts of Britain. The converse is true for England, with a net loss in numbers of trips, nights and spend versus the rest of Britain.

Table 1.2.16 – Net gains/losses of domestic tourism

	Trips	Nights	Spend
	Millions	Millions	£millions
England	-5.418	-26.543	-£985
Scotland	+2.540	+9.835	+£595
Wales	+3.074	+16.708	+£390

Tables 1.2.17 and 1.2.18 show that, with the exception of London, the greatest proportion of trips made in each region is made by residents of the same area. The origins of visitors to London were slightly more diverse, drawing visitors from a wider range of regions – more than nine out of ten (94%) overnight visits are made by non-London residents and therefore London sees a far smaller proportion of those who live in the region taking overnight visits there than do other regions.

In terms of bednights spent in each region (tables 1.2.19 and 1.2.20), the northern and southern regions of England tended to see a larger proportion of nights spent by those living in the same region. For other regions, including the East and West Midlands, East of England and London, larger shares of nights were spent by those from outside the region. A similar pattern was also seen in terms of the expenditure in each region by origin of visitor.

As with All Tourism Trips, Holiday Trips tended to have the greater proportion of trips being taken by people from the same region as residence. The exception being London, where visitors were more likely to have come from the rest of the South East or from further regions. This pattern was also reflected in the number of bednights and expenditure within each region. Each region had its own residents accounting for the largest share of nights/spend, apart from London, where visitors from elsewhere made up a larger proportion.

Booking method and lead time analysis

Trips booked by trip purpose

Table 1.2.29 – Booking method by trip purpose

	All trips		Holiday trips		VFR trips		Business trips

No firm bookings	4.590	37%	1.717	28%	2.259	56%	0.541	28%
Wales	10.002	100%	6.357	100%	2.839	100%	0.574	100%
Firm booking	5.269	53%	3.945	62%	0.821	29%	0.406	71%
No firm bookings	4.122	41%	2.032	32%	1.876	66%	0.096	17%

More than half (56%) of trips undertaken in GB during 2014 were booked in advance of taking the trip. The proportion of trips booked in advance varied by the purpose of the trip. Holidays and business trips were most likely to be booked in advance (71% and 65% respectively) and VFR trips were less likely to be booked in advance (33%). When considering holiday trips, those to Wales were less likely to be booked in advance (62%) than those to Scotland (68%) or England (73%).

Trips taken in GB by booking method

Table 1.2.30 – Booking method by volume of trips, nights and expenditure – Overall GB

	Trips	Nights	Expenditure
	Million	Million	£Million
Total	114.242	349.55	£22,692
Net: Firm booking	63.856	195.50	£15,987
Through a high street or on-line travel agent (e.g. Thomas Cook, Expedia)	8.076	21.06	£2,197
Directly through a tour operator or travel company, (e.g. Haven, English Country Cottages, Superbreaks)	5.480	20.57	£1,585
Directly through an accommodation provider (e.g. hotel, B & B, cottage owner)	37.482	112.65	£9,552
Directly through a transport provider (e.g. rail, air, sea, coach)	9.744	30.05	£2,116
Directly through a Tourist Board or Tourist Information Centre	0.936	3.14	£239
Through some other source	6.922	25.21	£1,664
Did not make any firm bookings before trip	44.100	133.16	£5,347
Don't know	6.286	20.89	£1,358

In table 1.2.30 it can be seen that 56% of GB trips in 2014 were booked in advance, but accounted for 70% of overall expenditure, because a higher proportion of more expensive trips were booked in advance than those costing less.

Overall, bookings made directly through the accommodation provider (e.g. hotel, B&B or cottage owner) account for the largest share of GB domestic overnight trips, with 37.5 million trips (33%) booked in this way. This method of booking also accounted for a slightly larger share of expenditure with more than two fifths (42%) of all expenditure being accounted for by direct bookings with accommodation providers. The nights spent by each booking method broadly reflected the share of trips overall, with the largest share of nights spent on trips where the booking was made directly with the accommodation provider. Other popular methods of booking trips included bookings made through a transport provider (e.g. rail, air, sea or coach), accounting for 9% of trips, or through a high street or online travel agent (7%). Just under two fifths (39%) of trips are made without a firm booking, but account for only a quarter (24%) of expenditure on GB trips overall.

GB trip volumes by booking methods and country visited

Table 1.2.31 – Trip volumes by booking method – by country visited

	GB	England	Scotland	Wales
Booking method	Million	Million	Million	Million
Total	114.242	92.613	12.519	10.002
Net: Firm booking	63.856	51.981	7.294	5.269
Through a high street or on-line travel agent (e.g. Thomas Cook, Expedia)	8.076	6.528	1.189	0.529
Directly through a tour operator or travel company, (e.g. Haven, English Country Cottages, Superbreaks)	5.480	4.429	0.531	0.599
Directly through an accommodation provider (e.g. hotel, B & B, cottage owner)	37.482	30.692	3.963	3.189
Directly through a transport provider (e.g. rail, air, sea, coach)	9.744	7.913	1.247	0.665
Directly through a Tourist Board or Tourist Information Centre	0.936	0.762	0.129	0.059
Through some other source	6.922	5.506	0.732	0.718
Did not make any firm bookings before trip	44.100	35.565	4.590	4.122
Don't know	6.286	5.067	0.635	0.611

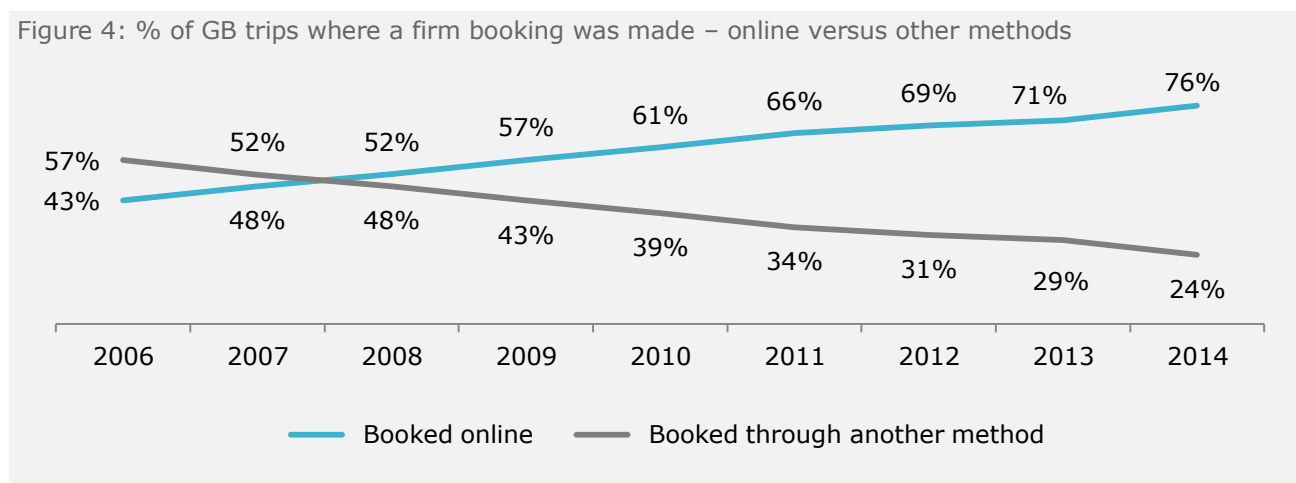

When comparing across different GB nations visited, there were similar proportions of visitors making firm bookings ahead of their trip, although Wales saw a slightly lower share (53% compared to 56% for GB overall).

In terms of the method of booking, going directly through the accommodation provider was the most popular choice across each of the nations, accounting for around a third in each (33% England, 32% Scotland and 32% Wales). Other methods of booking saw similar levels of take-up across the nations.

Booking online versus other methods

Table 1.2.32 – GB trip volumes by booking method – trends over time									
	2006	2007	2008	2009	2010	2011	2012	2013	2014
Purpose	Million	Million	Million	Million	Million	Million	Million	Million	Million
Total	122.580	119.854	114.442	122.537	115.711	126.635	126.019	122.905	114.242
Net: Firm booking	54.265	55.105	53.616	60.738	56.902	64.829	68.249	68.640	63.856

	43%	48%	52%	57%	61%	66%	69%	71%	76%
Booked through another method	30.924	28.579	25.960	26.290	22.163	21.856	21.156	20.095	15.502
	57%	52%	48%	43%	39%	34%	31%	29%	24%

Figure 4: % of GB trips where a firm booking was made – online versus other methods

The growth of the importance of online methods of booking GB overnight trips can clearly be seen in Figure 4. Around three quarters of trips where a firm booking is made were booked online and the volume of trips booked online has doubled since 2006.

Figure 5: % of 2014 trips vs 2013 trips booking made online - by type of provider

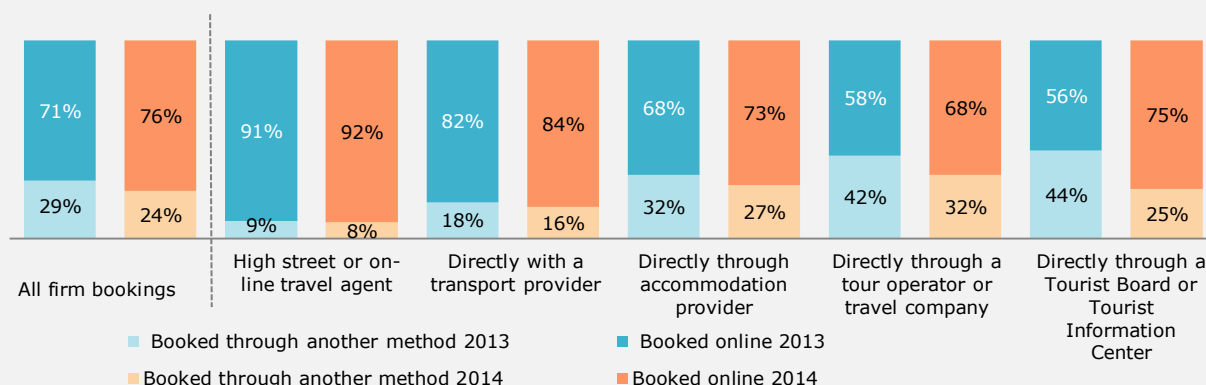

Figure 5 shows that in 2014 three quarters (76%) of all pre-booked trips were booked on line, up from 71% in 2013. Although the proportion varied by the type of channel through which the booking was made, in all cases the proportion booking online grew during 2014.

The highest levels of online booking were seen for those booking through a high street or online travel agent (e.g. Thomas Cook or Expedia) and around nine in ten (92%) of these trips were booked online. Booking accommodation through a transport provider was also highly likely to be done online (84%). Almost three quarters of those booking directly through an accommodation provider did so online (73%). Tour operators had 68% of trip-takers booking online and tourist boards and information centres 75%.

Figure 6: % of 2014 trips where a firm booking was made – booking method by trip purpose

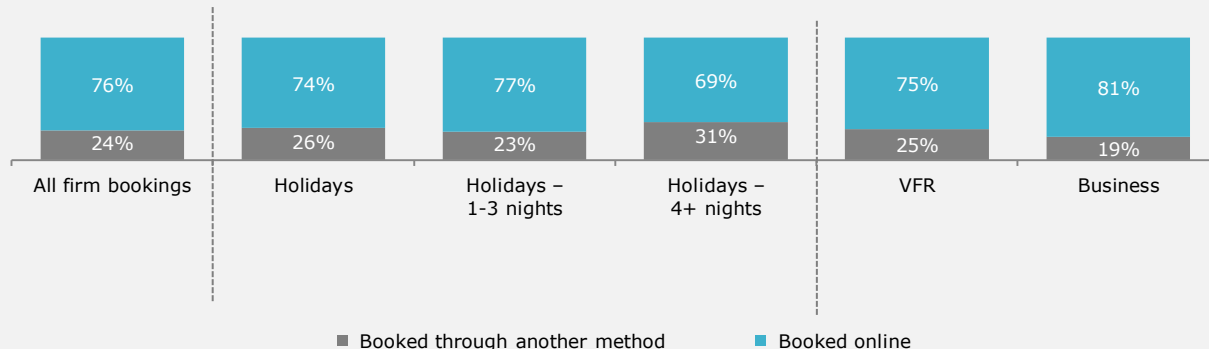

Figure 6 highlights that trip purpose did not have a significant impact upon propensity to book online or through other methods, with fairly consistent levels of take-up across all types. Business trips were more likely to be booked online, with more than four in five (81%) of pre-booked trips being done this way.

In terms of holiday trips, nearly three quarters (74%) of trips are booked in this way. Shorter holidays were more likely to have been booked online than longer ones (77% versus 69%).

Table 1.2.33– Booking online – device used by accommodation booking channel

		All online firm bookings	Through a high street or on-line travel agent (e.g. Thomas Cook, Expedia)	Directly through a tour operator or travel company, (e.g. Haven, English Country Cottages, Superbreaks)	Directly through an accommodation provider (e.g. hotel, B & B, cottage owner)	Directly through a transport provider (e.g. rail, air, sea, coach)	Directly through a Tourist Board or Tourist Information Centre

On a tablet device e.g. iPad, Kindle Fire etc.	2014	5.919 12%	1.121 15%	0.452 12%	3.447 13%	0.819 10%	0.126 18%
	2013	7%	10%	5%	8%	5%	14%
On a smartphone e.g. iPhone, Blackberry etc.	2014	2.259 5%	0.487 7%	0.121 3%	1.185 4%	0.403 5%	0.031 4%
	2013	3%	4%	2%	3%	4%	-
On TV/games console e.g. Smart TV, Xbox etc.	2014	0.125 0%	- -	0.018 0%	0.080 0%	0.006 0%	- -
Other	2014	0.111 0%	0.011 0%	0.017 0%	0.063 0%	0.031 0%	- -
None/don't know	2014	6.372 13%	0.762 10%	0.577 15%	3.620 13%	1.119 14%	0.027 4%

Table 1.2.33 shows that two thirds of firm bookings that were made online were booked on larger devices such as a laptop or desktop PC (which is a lower proportion than the 72% in 2013). Conversely the proportion of bookings made on mobile devices (12% tablet device and 5% smartphone) was higher than in 2013 (7% and 3% respectively). There were few variations from this pattern of online bookings, with the majority of bookings having been made on a laptop or desktop PC, regardless of booking channel.

Booking lead times by trips, nights and expenditure

In February 2013 a question was added to the GB Tourism Survey to examine the accommodation booking lead times, the length of time between booking and travelling for GB overnight holiday trips. This question was asked only of those who had made a firm booking ahead of arriving at their trip destination.

Table 1.2.34 – Booking lead times by volume of trips, nights and expenditure – Overall GB

Accommodation booking lead times	Trips		Nights		Expenditure	
	Million	%	Million	%	£million	%
Holidays booked in advance	37.450	100%	128.02	100%	£10,298	100%
More than 6 months before (365 days)	3.367	9%	17.75	14%	£1,206	12%
4-6 months before (150 days)	4.454	12%	20.10	16%	£1,581	15%
2-3 months before (45 days)	9.221	25%	32.97	26%	£2,732	27%
About a month before (30 days)	6.646	18%	21.26	17%	£1,776	17%
2-3 weeks before (17.5 days)	6.563	18%	18.68	15%	£1,658	16%
4-7 days before (5.5 days)	4.220	11%	10.96	9%	£826	8%
2-3 days before (2.5 days)	2.015	5%	4.69	4%	£434	4%
The day before (1 day)	0.825	2%	1.95	2%	£147	1%
Booked same day/booked after setting off on the trip (0 days)	0.348	1%	0.68	1%	£62	1%
Average booking lead time in days	70.5		-		-	

Of those GB domestic overnight trips where accommodation was booked, on average it is booked 70.5 days in advance of the trip, around two months and one week, and two days longer than in 2013. Around three fifths (63%) of trips were booked at least a month ahead of the trip, a similar proportion to 2013. Trips booked at least a month in advance tended to have a slightly higher share of nights (72%) and expenditure (71%), meaning that longer, more expensive trips are more likely to be booked further in advance.

Table 1.2.35 – Trip volumes by booking lead times and country visited

	GB	England	Scotland	Wales
Accommodation booking lead times	Million	Million	Million	Million
Total all holidays	52.903	40.740	6.302	6.357

The day before (1 day)	0.825	0.585	0.068	0.172
Booked same day/booked after setting off on the trip (0 days)	0.348	0.279	0.035	0.034
Average booking lead time in days	70.5	71.2	59.8	79.8

Comparison of individual GB nations show they tended to be broadly similar in terms of the proportion of holiday trips booked in advance (GB 71%, England 73%, Scotland 68% and Wales 62%), though holiday trips to Wales were slightly less likely to be booked in advance, as a proportion of all holiday trips.

Trips booked in advance tended to be booked on average over two months in advance. Trips to Wales were more likely to be booked further in advance, with an average booking lead time of 79.8 days whereas trips to Scotland tended to have the shortest average booking lead times, at 59.8 days average.

Table 1.2.36 – Trip volumes by booking lead times and accommodation booking channel – Overall GB

2-3 days before (2.5 days)	0.358	0.092	1.147	0.156	0.029
The day before (1 day)	0.186	0.033	0.417	0.055	0.016
Booked same day/booked after setting off on the trip (0 days)	0.035	-	0.292	0.023	-
Average booking lead time in days (2014)	58.9	107.5	69.2	46.3	57.0
Average booking lead time in days (2013)	47.1	95.7	69.6	59.4	65.1

Table 1.2.36 illustrates that there were notable variations in booking lead times by the different booking channels used for GB holiday overnight trips. Trips where accommodation was booked through a transport provider tended to see shorter booking lead times (46.3 days). Trips booked via a high street or online travel agent also tended to see the shorter booking lead times, being booked on average 58.9 days ahead.

Booking directly through an accommodation provider saw slightly longer average booking lead times of 69.2 days. The range of booking lead times for this method were slightly wider, with around a fifth (20%) having booked under a week before travelling, and a further fifth (20%) having been booked at least 4 months in advance. Trips that were booked through a tour operator or travel company saw the longest average booking lead time (107.5 days). Nearly a third of these trips were booked at least 4 months ahead of travelling.

In 2014 booking lead times were longer for trips booked through travel agents and tour operators compared to 2013, and trips booked through transport providers had a shorter lead time in 2014.

Table 1.2.37 – Trip volumes by booking lead times and length of trips – Overall GB

	1 to 3 nights	4 to 7 nights	8+ nights
Accommodation booking lead times	Million	Million	Million
Holidays booked in advance	24.265	12.349	1.733
More than 6 months before (365 days)	1.175	1.757	0.435
4-6 months before (150 days)	1.985	2.066	0.403
2-3 months before (45 days)	5.397	3.462	0.362
About a month before (30 days)	4.372	2.012	0.261
2-3 weeks before (17.5 days)	4.798	1.618	0.147
4-7 days before (5.5 days)	3.402	0.753	0.065
2-3 days before (2.5 days)	1.739	0.249	0.027
The day before (1 day)	0.677	0.134	0.013
Booked same day/booked after setting off on the trip (0 days)	0.319	0.029	-
Average booking lead time in days	50.6	99.4	143.8

As may be expected, shorter trips tended to have shorter booking lead times, with an average of 50.6 days between booking and travelling for trips that were one to three nights in length (around one month and three weeks). Trips of four to seven days had an average booking lead time of 99.4 days (over three months), while trips of over one week duration had much longer average booking lead times (143.8 days).

Accessibility

Respondents were asked whether they or any members of the party during their visit had any of the following disabilities or impairments. More than one in six (16%) trips were made with a member of the party having one or more of these conditions. Long-term illness, mobility impairment (non-wheelchair user) or deafness/partial hearing loss were the most common conditions.

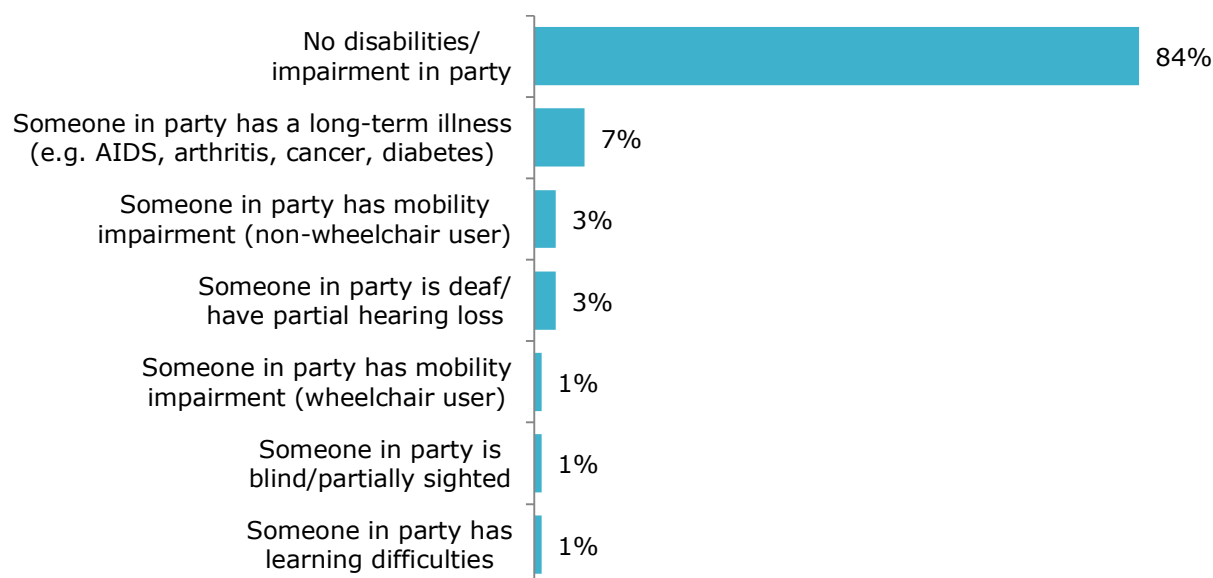

Figure 2.9 – 2014 Disabilities: Percentage of trips where one or more party member has a disability or impairment - All GB trips

The tables below also examine the number of trips, nights and expenditure by the presence of disabilities in the party. Looking across each of the GB nations, the share of trips where a member of the party has a disability or impairment is comparable across each (England 14%, Scotland 13%, Wales 16%). The volume of nights spent on overnight trips for parties of this type was also comparable across each of the nations, though these trips tended to be slightly longer than those where there were no disabilities or impairments in the party, 3.6 nights long on average versus 3.0 for those with no disability or impairment. For expenditure too, trips including someone in the party with a disability or impairment saw slightly higher average expenditure (£213) than for those who did not (£196). In terms of differences between the nations for these party types, Scotland saw the largest difference in average spend made by parties with a disability or impairment compared to parties without (£249 versus £226). In England the difference was £210 versus £192, and Wales £185 compared to £174, for those trips including someone with a disability or impairment compared to those without.

Section 1.3 – 2010-14 domestic tourism

Trends in domestic tourism 2010-14

This section of the report presents the key findings for each year from 2010. Comparing five years of data provides a better understanding of the longer term trends in domestic tourism which are less apparent when comparing 'year-on-year'. The main body of the text focuses on the most recent 2014 time period when compared to 2013. However, any apparent trends over the 2010 – 2014 period are also highlighted.

Please note that the focus is on trips taken by British residents within GB – Northern Ireland as both a destination and an origin has been removed (reflecting the change in the survey coverage from 2011 onwards). All data presented here has Northern Ireland residents and destination information removed. Consequently, care should be taken when comparing results from this year's report with those of previous years. Also, please note that all expenditure figures are presented in their original state as collected (historic prices). They do not therefore take account of inflation (in comparison to the expenditure data in Section 1.1 where inflation is taken into account).

Tourism trips taken in GB

Table 1.3.1 – Tourism trips taken in GB (2010-2014)

	2010 (Jan-Dec)	2011 (Jan-Dec)	% change (10-11)	2012 (Jan-Dec)	% change (11-12)	2013 (Jan-Dec)	% change (12-13)	2014 (Jan-Dec)	% change (13-14)	Average annual % change 10-14

Average spend per trip	£171	£179	+4.6%	£190	+6.2%	£190	0.0%	£199	+4.7%	+3.3%
Average spend per night	£55	£59	+6.8%	£62	+5.1%	£62	0.0%	£65	+4.8%	+3.6%

Looking at the longer term trends, domestic tourism saw a significantly more positive performance in 2011 compared to 2010, and continued at a similar level in 2013. 2013 saw a decline of -2.5%, which has continued in 2014 and now stands at 114.2 million (-7.1% compared to 2013). Despite the +9.4% growth in trips in 2011, the declines over the last two years mean the average annual change over the five years is now a negligible -0.3%.

The number of nights spent on trips in Britain rose significantly during 2011 compared to the previous year and 2012 saw the level being maintained with a small increase of +0.2%. However in 2013 this level dropped by -3.8% year on year, and in 2014 fell a further -6.4%. This has resulted in an average annual change of -0.7% since 2010.

Expenditure (before taking account of inflation) had been growing between 2010 and 2012, however 2013 saw a drop in spending to £23.3 billion and 2014 has seen a fall of -2.6% to £22.7 billion. The overall performance of GB trip expenditure over the past five years has resulted in an average annual percentage change of +2.9% since 2010.

Total holiday trips (including those to visit friends and relatives) made up the largest proportion of domestic trips taken in GB, with 79.2 million trips having been taken for this purpose during the period of January to December 2014, a decline of -4.1%. More than two thirds (53.9 million) of these trips were shorter in length, lasting 1-3 nights, so trips lasting four days or longer made up about a third (25.3 million).

Holiday trips in Britain have seen a decrease in 2014 (to 52.9 million), a decline of -7.1% compared to 2013. Within this, holiday trips lasting over a week grew, while those lasting a week or less declined.

2014 saw a drop in VFR trips, with 42.5 million trips taken, a reduction of -3.8%.

15.9 million overnight business trips were taken in 2014, down -13.1% on 2013.

The number of nights spent on British trips grew between 2010 and 2012 peaking with 388.2 million domestic bednights in 2012. However 2013 saw this figure drop to 373.6 million, a decline of -3.8% which was followed by a further decline of -6.4% to 349.5 million in 2014. Across the 2010 to 2014 period the overall average annual percentage change was -0.7%

Total domestic holiday bednights (including VFR) grew between 2010 and 2012 to 282.4 million, but this fell by -1.7% in 2013 and -4.8% in 2014 to 264.4 million. Trips of over a week in length declined the most, by -10.0%.

For the third year running there was a decline (-6.8%) in the number of bednights used during holiday trips. The decline is sharpest for the longest holidays, -11.5% lower than 2013 for holidays of over a week.

The number of nights spent on business trips also fell (by -8.2%) to 38.1 million. Similarly nights on visits to friends and relatives declined by -5.2% to 118.2 million.

It is important to note that 2013 and earlier figures are in historic prices and have not been converted to take account of inflation.

In terms of revenue, British domestic overnight tourism experienced growth from 2010 to 2012, but 2013 and 2014 both saw declines, -2.8% and -2.6% respectively to give a value for 2014 of £22.7 billion. That is an average annual rate of growth of +3.7% since 2010.

Expenditure on Total holidays (including VFR) also declined in both 2013 (-1.8%) and 2014 (-1.0%) to £16.3 billion.

Spend on true holidays was down -3.0% compared to 2013 at £13.1 billion, driven particularly by the decline in domestic holidays lasting over a week (-10.5%).

Conversely spend on trips to visit friends and relatives was up +3.0% in 2014 to £5.0 billion.

Spend on business trips was down by -9.2% to £4.1 billion.

Tourism trips taken in England

Table 1.3.5 – Tourism trips taken in England (2010-2014)

Average spend per night	£56	£58	+5.0%	£63	+8.4%	£63	0.0%	£66	+4.8%	+3.6%

As the largest proportion of the overall market, the English performance for domestic tourism trips tends to reflect the GB performance. For 2014, the volume of overnight domestic trips to England stood at 92.6 million, a decline of -9.0% compared to 2013.

There was also a decrease in the number of nights spent in England to 272.9 million (-8.2%) and consequently a decrease in spend to £18.1 billion (-3.3%).

While the average length of trips in England has remained relatively unchanged during the five year period from 2010 to 2014, the value of these trips has risen both in terms of overall spend and spend per night (an average percentage change of +3.5% and +3.6% respectively over the five year period).

Business/work	13.454	15.502	+15.2%	15.901	+2.6%	15.589	-2.0%	13.547	-13.1%	+0.7%

Total holiday trips (including VFR) amounted to 63.0 million in 2014, a fall of -5.8% since 2013. Within this, holidays lasting more than a week declined more than those of up to a week (-9.7%).

True domestic holidays to England declined proportionally more, by -9.3%, to 40.7 million. Shorter holiday breaks (1-3 nights) constitute the largest part of English tourism trips. The volume of holiday trips lasting one to three nights reached its highest point within the last five years in 2012, at 30.2 million trips, and has declined in the last 2 years to a 2014 level of 26.5 million.

Following the trend seen with the overall GB results, English VFR trips have suffered a decline (-6.0%) from 2013 to 2014 to 35.9 million.

In line with overall GB, business tourism volumes to England have dropped to 13.5 million in 2014 (-13.1%).

Tourism trips taken in Scotland

Table 1.3.7 – Tourism trips taken in Scotland (2009-2014)

	2010 (Jan-Dec)	2011 (Jan-Dec)	% change (10-11)	2012 (Jan-Dec)	% change (11-12)	2013 (Jan-Dec)	% change (12-13)	2014 (Jan-Dec)	% change (13-14)	Average annual % change 10-14
Trips (millions)	12.095	13.360	+10.5%	12.752	-4.6%	12.122	-4.9%	12.519	+3.3%	+1.1%
Nights (millions)	43.64	45.58	+4.5%	43.32	-5.0%	42.73	-1.4%	41.61	-2.6%	-1.1%
Spending (£millions)	£2,517	£3,018	+19.9%	£2,891	-4.2%	£2,889	-0.1%	£2,871	-0.6%	+3.8%
Average nights per trip	3.61	3.41	-5.4%	3.40	-0.4%	3.52	+3.5%	3.32	-5.7%	-1.6%
Average spend per trip	£208	£226	+8.6%	£227	+0.3%	£238	+4.9%	£229	-3.8%	+2.0%
Average spend per night	£58	£66	+14.8%	£67	+1.1%	£68	+1.5%	£69	+1.5%	+3.8%

The volume of trips taken in Scotland during 2014 has increased +3.3% compared to the same period in 2013, now standing at around 12.5 million, although this is still below the peak of 13.4 million in 2011. During the period from 2010 to 2014 the average annual percentage change has been +1.1%.

The average length of trips fell from 2013 (3.52 nights) to 2014 (3.32 nights), which resulted in a -2.6% reduction in the total number of bednights taken up by domestic tourists in Scotland, at 41.6 million. Over the five year period, the number of bednights decreased at an annual average rate of -1.1%.

The (unadjusted) value of Scottish trips taken over the past three years has remained fairly consistent and was £2.9 billion in 2014. However, whilst the average spend per night remained similar, at £69, the average spend per trip fell from £238 to £229 due to the reduction in average trip length.

In 2014, total holiday trips (including VFR) made up nearly three quarters of all overnight domestic visits to Scotland, with 8.9 million, which is a similar number to 2013. As has already been noted, the average trip length reduced, which meant that the number of trips shorter than four nights increased by +8.6 % and those of four to seven nights reduced by -13.6%.

Holiday trips (excluding VFR) showed a slightly different pattern, with a -2.8% reduction in this type of trip compared to 2013, although again it was holiday trips of four to seven nights duration that declined most. The average annual rate of change for holiday trips over the five year period in Scotland was +2.9%

Overnight trips to visit friends and relatives in Scotland accounted for the entire increase in tourism trips to Scotland, with a year on year increase of +16.3% to 4.0 million. Non-holiday VFR trips increased by more than a quarter (+27.8%). It is likely that the multitude of events and activities throughout 2014, such as the Commonwealth Games and Homecoming would have been the main reasons for this increase.

The performance of business trip volumes in Scotland has differed to that seen across GB in total, declining each year since 2010. The average annual percentage change across the five years was -4.5% and the fall in 2014 was -2.6%.

Tourism trips taken in Wales

Average spend per night	£44	£50	+13.1%	£46	-8.5%	£50	+9.5%	£49	-2.0%	+2.3%

Trip volumes to Wales reached 10.0 million in 2014, the highest level in Wales since 2006. This is a small increase (+0.7%) from 2013. The average annual increase across the five years was +3.8%.

In 2014 the number of bednights in Wales increased to 35.1 million, the highest level since 2006, an increase of +4.1% since 2013. This gives an average annual increase of +1.8%.

The expenditure of £1.7 billion in 2014 was equivalent to the amount spent in 2011 (not adjusted for inflation), and an increase of +2.3% over 2013, giving an annual average increase of +5.3%

Total holiday trips (including VFR holidays) make up four in five of all domestic overnight tourism trips in Wales. Volume of these types of trip was up +4.2% to 8.0 million in 2014. Growth has been consistent over the past five years, with an average annual rise of +3.7%. The largest increase in 2014 was in total holiday trips of between four and seven night duration (+11.9%).

The number of holiday trips (excluding VFR) has risen by +4.3% in 2014 to 6.4 million, nearly two thirds of all Welsh overnight tourism trips. This growth came from trips of up to a week duration, whereas the number of trips longer than a week declined.

There was a rise (+3.1%) in the number of VFR trips made in Wales during 2014, building on the large rise seen in 2013.

In 2014 business trips made up only a small proportion of overall trips in Wales (around 6%), which is somewhat lower than in 2013, when they were about 9% of the total.

Expenditure during 2014

This section examines the breakdown of domestic tourism expenditure; first at a GB level between 2010 and 2014 (for all tourism and holidays) then at the country level (comparing 2013 with 2014 for all tourism and holidays).

When a survey respondent is interviewed, they are asked to specify how much money they spent on their trip within eight categories:

- Price of package holiday/inclusive trip
- Accommodation
- Travel costs to and from destination, and during the trip
- Services or advice (e.g. travel guides, tourist information)
- Buying clothes
- Eating and drinking out
- Other shopping
- Entertainment

Although it can be informative to compare total spend when broken down into these categories, the results should be interpreted with caution due to the smaller sample size at this level.

Note: It is also important to emphasise that, as in the previous section, the 2010 to 2014 figures are in historic prices and have not been converted to take account of inflation.

Table 1.3.11 below illustrates total spending on domestic overnight trips within GB between 2010 and 2014.

Table 1.3.11 – Tourism expenditure breakdown in GB (2010-2014)

Just under £23 billion was spent on British tourism during 2014. This represents a decrease of -2.6% compared to domestic tourism value for 2013 and follows from a similar decline in 2012. The annual average growth rate for the five year period from 2010 to 2014 was positive, indexing at +3.6%.

Accommodation continued to make up the largest portion of spend. A third (36%) of the total value of trips was spent on accommodation and this has remained relatively unchanged over the five year period. Travel costs made up a fifth (20%) of the value of British overnight trips, and eating and drinking out a further fifth (20%), neither of which changed over the past five years.

Note: * = less than 0.5%

Holidays (excluding VFR) were worth £13.1 billion across GB in 2014, a decrease of -3.0% compared to the value figure for 2013 holidays. Over the course of the five year period there has been some variation in direction of growth, although this averages out at a positive average annual rate of growth (+3.4%).

As with the overall level of spend on British trips, the items/services that visitors spend their money on has been relatively consistent over the past five years. Again, accommodation makes up the single-biggest area of expenditure on Holiday trips and is worth around £5.1 billion (39% of overall spend). Money spent on eating and drinking makes up a fifth of holiday spend and travel costs account for 14% of overall spend.

Total spending on domestic overnight trips within England between 2013 and 2014

Note: *= less than 0.5%

Given the relative size of England, it is little surprise that the expenditure results reflect those of GB as a whole. During the period from January to December 2014, domestic overnight trips were worth £18.1 billion to England, with more than half (56%) of this value being attributed to holidays.

Overall spend has declined by -3.3% but spend on accommodation actually increased by +2.0%, whereas travel costs fell by -8.5% (possibly due to reduced fuel prices). Spend on eating and drinking out also fell, by -3.8%. This pattern of change in spend was also evident for holidays.

Total spending on domestic overnight trips within Scotland between 2013 and 2014

Spending on Welsh domestic tourism trips continues to grow. The value of Welsh tourism trips was just over £1.7 billion in 2014 which was up +2.3% on 2013. Accommodation still represents the largest portion of expenditure at 36%, which was an increase of +9.2% on 2013. Eating and drinking out makes up 22% of spend - an increase of +11.9% since 2013 and travel costs now account for 18%, down -7.1% in 12 months.

Accommodation accounted for a greater proportion of expenditure on holiday trips in Wales, at 40% (up 17.8%), whereas a similar proportion is spent on eating and drinking out (21%) and a smaller proportion is accounted for by travel costs (15%).

Holidays taken in GB by lifestage

This section examines the trends and characteristics of holiday tourism and how it varies by lifestage. The number of trips and the percentage change between years has been illustrated for GB and each constituent country between 2010 and 2014.

British adults have been defined into four categories:

Lifestage	
Pre-nesters	Under 35 years and no children
Families	All ages and with children
Older Independents	35-54 years and no children
Empty Nesters	55+ years and no children

Table 1.3.16 – Holiday tourism trips taken in GB by Lifestage (2010-2014)

	2010 (Jan-Dec)	2011 (Jan-Dec)	% change (10-11)	2012 (Jan-Dec)	% change (11-12)	2013 (Jan-Dec)	% change (12-13)	2014 (Jan-Dec)	% change (13-14)	Average annual % change 10-14
Holidays	54.743	58.435	+6.7%	57.695	-1.3%	56.969	-1.3%	52.903	-7.1%	-0.7%
Pre-nesters	8.067	8.650	+7.2%	8.963	+3.6%	8.461	-5.6%	7.428	-12.2%	-1.7%
Families	19.649	20.288	+3.3%	19.869	-2.1%	19.252	-3.1%	18.550	-3.7%	-1.4%
Older Independents	10.178	10.751	+5.6%	10.593	-1.5%	10.665	+0.7%	8.753	-17.9%	-3.3%
Empty Nesters	16.849	18.745	+11.3%	18.270	-2.5%	18.591	+1.8%	18.173	-2.3%	+1.6%

Of the 52.9 million holiday trips taken in Britain during 2014, Families represent the largest segment, with 18.6 million trips taken, although Empty Nesters account for nearly as many trips, with 18.2 million. The Family holidays are down by -3.7% on the figure for 2013, and Empty Nesters are down -2.3%. Older Independents account for 8.8 million holidays, down -17.9% and Pre-nesters 7.4 million, down -12.2% on 2013. The only group which has increased the number of trips they take over the past five years is Empty Nesters, whereas older independents are the group which has seen the greatest long term decline.

Holidays taken in England by Lifestage

Table 1.3.17 – Holiday tourism trips taken in England by Lifestage (2010-2014)

	2010 (Jan-Dec)	2011 (Jan-Dec)	% change (10-11)	2012 (Jan-Dec)	% change (11-12)	2013 (Jan-Dec)	% change (12-13)	2014 (Jan-Dec)	% change (13-14)	Average annual % change 10-14
Holidays	43.544	46.157	+6.0%	45.992	-0.4%	44.926	-2.3%	40.740	-9.3%	-1.5%
Pre-nesters	6.381	6.818	+6.9%	7.387	+8.4%	6.487	-12.2%	5.735	-11.6%	-2.1%
Families	15.632	16.071	+2.8%	16.104	+0.2%	15.355	-4.7%	14.291	-6.9%	-2.1%
Older Independents	7.899	8.470	+7.2%	8.541	+0.8%	8.389	-1.8%	6.631	-21.0%	-3.7%

As for GB, Families and Empty Nesters also accounted for the largest part of English holiday trips at 14.3 million and 14.1 million respectively for 2014. There was a decline (-6.9%) in the number of holiday trips taken by Families and a -4.2% reduction for Empty Nesters, compared to 2013. Holiday trips by Pre-nesters and Older Independents have declined at a faster rate in 2014, -11.6% and -21.0% respectively. Only holiday trips by Empty Nesters have not declined over the past 5 years.

Holidays taken in Scotland by Lifestage

Table 1.3.18 – Pure holiday tourism trips taken in Scotland by Lifestage (2010-2014)

	2010 (Jan-Dec)	2011 (Jan-Dec)	% Change (10-11)	2012 (Jan-Dec)	% Change (11-12)	2013 (Jan-Dec)	% Change (12-13)	2014 (Jan-Dec)	% change (13-14)	Average annual % change 10-14
Holidays	5.700	6.572	+15.3%	6.168	-6.2%	6.48	+5.1%	6.302	-2.8%	+2.9%
Pre-nesters	0.994	1.000	+0.6%	0.829	-17.1%	1.148	+38.5%	1.064	-7.3%	+3.7%
Families	1.699	2.056	+21.0%	1.787	-13.1%	1.859	+4.0%	1.966	+5.8%	+4.4%
Older Independents	1.222	1.347	+10.2%	1.091	-19.0%	1.406	+28.9%	1.196	-14.9%	+1.3%
Empty Nesters	1.785	2.169	+21.5%	2.461	+13.5%	2.067	-16.0%	2.076	+0.4%	+4.9%

The largest lifestage group for Scottish holiday trips in 2014 was Empty Nesters, accounting for 2.1 million of the 6.3 million, virtually unchanged since 2013. However, Families is the group which has grown the most in 2014, having taken 2.0 million holiday trips in Scotland during 2014. The number of holiday trips taken in Scotland by both Pre-nesters and Older Independents fell in 2014. All lifestyle groups have seen growth in Scotland across the last five years.

Holidays taken in Wales by Lifestage

Table 1.3.19 – Holiday tourism trips taken in Wales by Lifestage (2010-2014)

	2010 (Jan-Dec)	2011 (Jan-Dec)	% change (10-11)	2012 (Jan-Dec)	% change (11-12)	2013 (Jan-Dec)	% change (12-13)	2014 (Jan-Dec)	% change (13-14)	Average annual % change 10-14
Holidays	5.762	6.036	+4.8%	5.914	-2.0%	6.091	+3.0%	6.357	+4.4%	+2.5%
Pre-nesters	0.749	0.887	+18.4%	0.780	-12.1%	0.893	+14.5%	0.667	-25.3%	-1.1%
Families	2.415	2.221	-8.0%	2.072	-6.7%	2.180	+5.2%	2.442	+12.0%	+0.6%
Older Independents	1.084	0.977	-9.9%	1.009	+3.3%	0.995	-1.4%	1.010	+1.5%	-1.6%
Empty Nesters	1.514	1.950	+28.8%	2.053	+5.3%	2.023	-1.5%	2.237	+10.6%	+10.8%

As with the other countries, Families and Empty Nesters made up the majority of holiday trips in Wales during 2014, with 2.4 and 2.2 million trips respectively. These were both increases since 2013, +12.0% for Families and +10.6% for Empty Nesters. The number of holiday trips taken by Older Independents remained at a similar level to 2013 (1.0 million trips), whereas holiday trips taken by Pre-nesters fell by -25.3%. Over the past five years the only group to have seen significant growth is the Empty Nesters.

All tourism in Great Britain

British residents made an estimated 114 million trips in Great Britain in 2013, representing 350 million bed nights and £23 billion in spending.

Total holidays (including visiting friends and relatives) are the main purpose of trips taken, accounting for two thirds (69%) of trips taken and are even more important in terms of nights (76%) and spending (72%). Visits to friends and relatives (VFR) for mainly holiday purposes account for one in four trips and nights away (23%) but are less significant in terms of spending (14%). Business and work is the main purpose for around one in seven trips (14%) accounting for one in nine nights (11%). These are higher spending trips, accounting for just under a fifth (18%) of all tourism spending.

Friends' and relatives' homes (including owned second homes) are a widely used type of accommodation accounting for almost four in ten of all trips (36%). This reflects not only visits to friends and relatives as such, but also holidays spent staying with friends and relatives. With no real accommodation costs, trips staying at friends' and relatives' homes account for only 17% of spending on all tourism trips.

Commercial accommodation is used on just over half of trips (55%), but these trips represent a much higher share of spending (79%). Commercial accommodation is mainly serviced (42% of trips) where trips tend to be shorter in duration (31% of nights) but higher spending (55%). Hotels and motels account for 35% of trips and 47% of spend; guest houses and B&Bs account for 6% of trips and 8% of spend. Self-catering rented accommodation is used on a lower volume of trips (21%), but these trips are longer (26% of nights) and therefore slightly above average in terms of spending (23%).

The car is the dominant form of transport with three quarters (75%) of trips using a private car for the longest part of the journey from home to the destination

Firm bookings are made before more than half of all trips (56%), but it would be higher were it not for the high level of staying at friends and relatives' homes and using personal transport, where advance booking is less relevant

Large cities/large towns (41%) are the major destinations of tourism trips, followed by small towns (23%), the seaside (20%) and countryside/villages (19%)

Note: *Top 25 activities undertaken on trip illustrated in Table 2-1 above. Sorted by frequency of GB all tourism trips

Holiday trips in Great Britain

Tables 2.2a – 2.2c below are based on holidays (excluding VFR). Visits to friends and relatives, which are described by the respondent as being mainly a holiday rather than for some other reason, are included further below in Tables 2.3a – 2.3c.

British residents made 53 million holiday trips in Great Britain in 2014. Short holidays of 1-3 nights in length accounted for a 64% share whilst long holidays of 4+ nights or more accounted for a smaller share (36%).

The commercial accommodation sector accounts for four in five holiday trips (82%), with the share for short trips (81%) and long trips (82%) being at similar levels. Self-catering accommodation (mainly cottages and caravans), account for 49% of longer trips, and 35% of shorter trips.

The car is the dominant mode of transport used for the longest part of the journey to the destination (80%). Public transport is used for 16% of holiday trips.

Firm bookings were made before going on holiday for over two thirds of holiday trips (71%).

Holiday trips are taken to a wide range of destinations. 36% of short trips are taken to large cities/towns whereas 45% of longer trips are taken to the seaside.

Just under a third (30%) of holiday trips started in July or August.

Holiday bed nights in Great Britain

This section covers holiday tourism (excluding VFR) in terms of bed nights. As evident in recent years, the overall pattern is very similar to that for trips, but some differences are highlighted below. Furthermore, some clear patterns emerge between short and long holidays.

Serviced accommodation is less important in terms of nights (34%) than it is for trips (48%). This is reflected in the share of bed nights based on the duration of the holiday with serviced accommodation accounting for a 54% share of short trips and a 23% share of longer trips. In contrast, self-catering accommodation accounts for 56% of bed nights on longer trips but only 26% on short trips.

The seaside accounts for 37% of holiday nights, a smaller share of shorter trips (26%) than long trips (43%). In contrast, trips within large towns and cities represent a larger share of bed nights on shorter trips (32%) when compared to longer trips (13%).

There is a strong summer seasonal peak in terms of nights, with 38% of nights taken in July and August. July and August account for an even larger share of bed nights on longer trips (45%) than for short trips (24%) reflecting the fact that many tourists take their main holiday during these summer months.

Note: *Top 25 activities undertaken on trip illustrated in Table 2.2b above. Sorted by frequency of GB all holiday nights

Holiday spending in Great Britain

This section covers holiday tourism (excluding VFR) in terms of spending. The overall pattern, as evident in recent years, is very similar to that for trips and nights. Key differences between short and long holidays have been highlighted below.

Serviced accommodation (principally hotels) is slightly more important in terms of spending (53%) than trips (48%) or especially nights (34%), particularly spending on short trips (73%). Self-catering accommodation is more popular on longer trips, accounting for over half of the share of spend (56%).

Firm bookings made before going on trips account for a 79% share of all spend. There is no difference between the share of spend for short trips vs long with firm bookings accounting for 79% of short and 79% of long trips.

The share of overall holiday expenditure for those staying in their own homes or homes of friends or relatives is lower (6%) and the share of trips (11%) and nights (12%). As with firm bookings, there is little difference between short and long trips where the accommodation is in a home, accounting for 7% of short trips and 6% of longer trips.

Note: *Top 25 activities undertaken on trip illustrated in Table 2.2c above. Sorted by frequency of GB all holiday spend.

Visits to friends and relatives (VFR)

Tables 2.3a – 2.3c illustrate the value and volume of trips, bed nights and expenditure for visits to friends and relatives. These trips are further split by visits to friends and relatives which are described by the respondent as being mainly a holiday and visits to friends and relatives for some other reason.

British residents made 43 million VFR trips within Great Britain in 2014. 26 million of these trips were VFR-holiday trips (62%) and the remaining 16 million were VFR-other trips (38%). VFR-other trips tended to be shorter (2.38 nights on average versus 3.03 for VFR-holiday) and spread more evenly across the year.

As would be expected, the majority of VFR trips involve staying in own homes or homes of friends and relatives (79% of trips), however this is not always the case, with a fifth (22%) using commercial accommodation.

As with other types of tourism, the private car is the most widely used transport type for the journey to the destination (76% of trips).

Large cities/large towns and small towns are the main types of destination for VFR trips (45% and 28% respectively), reflecting the population distribution.

VFR trips are spread fairly evenly throughout the year, albeit with a peak in December (16%), reflecting the Christmas period.

Some 15% of VFR trips are made by 16-24 year olds, a greater proportion than for All Tourism, where only 11% of trips are made by this youngest age-group.

Note: *Top 25 activities undertaken on trip illustrated in Table 2.2c above. Sorted by frequency of GB all VFR spend.

VFR bednights in Great Britain

This section covers VFR bednights of which there were 118 million during 2014. 80 million of these (67%) were to visit friends and relatives whilst on holiday.

Staying in own homes or homes of friends and relatives is slightly more important when expressed in bed nights (81%) than it is for when expressed in terms of trips (79%).

The majority (62%) of VFR bednights were taken without a firm booking.

Reflecting the popularity of visiting friends and relatives over the Christmas period, December accounted for an 19% share of all bednights, a higher share than for trips (16%).

Notes: *Top 25 activities undertaken on trip illustrated in Table 2.3b above. Sorted by frequency of GB all VFR nights.

VFR spending in Great Britain

The overall pattern for VFR spending is consistent with trips and bed nights. These types of trips are less reliant on commercial accommodation (accounting for a 39% share of spend) with friends and relatives homes the most popular type of accommodation (59% share of spend).

Trips to large cities and towns and small towns accounted for a 70% share of all VFR spend, reflecting the large population bases in built up conurbations where most of these trips are taken.

Short trips (1-3 nights) accounted for a 68% share of spend – this was particularly so for VFR-other trips (77%). In contrast, VFR-holidays accounted for a larger share of spend for trips that lasted between 4-7 nights (26% compared to 17% for VFR-other trips).

Table 2.3c – VFR spend in GB

Table 2.4 – Business and work tourism in Great Britain

British residents made 16 million overnight business and work trips within Great Britain in 2014. This represents 38 million bed nights and £4.1 billion expenditure.

Commercial accommodation is used for the vast majority of business trips (86%), predominantly hotels and motels (72%). However it is worth noting that nearly one in ten of business and work trips involve staying in their own second homes or those of friends' and relatives (8%).

Car is the main form of transport used for the journey to the destination (59% of trips). Public transport is used for a third of business and work trips (33%) – especially the train (25%).

Business and work trips tend to be relatively short, with nearly half involving only one night away from home (47%).

Almost half (49%) of trips are taken by those in the professional and managerial (AB) socio-economic group, over twice the share of the British adult population (20%).

Table 2.5 – All tourism – Destination and purpose

This section provides a regional breakdown of tourism volume and value in England, Scotland and Wales in 2014.

The relative 'strengths' of individual English regions include:

- Holidays – South West
- VFR – South East
- Business – London

The regional breakdowns for Scotland and Wales are based on small sample sizes and are therefore subject to much wider margins of error.

Appendix

Appendix

Definitions of terms used

Most terms used in this report will be familiar to users of tourism data without further explanation. However, definitions of the main terms used in the report are provided below for reference.

Trips

The estimated number of tourism trips made by adults aged 16 and over and by children up to the age of 15 who accompany them. A trip must consist of at least one night spent away from home, has no upper limit (unlike in the previous versions of the survey where a maximum limit of 60 nights was imposed), and has its end marked by the respondent's return to home. However, the reported timing of trips is reported on the basis of the start date of individual trips. This start date approach is consistent with previous methodologies.

Not included are 'unaccompanied child trips' – trips taken by children up to the age of 15 when not accompanied by an adult.

Bednights

The estimated number of nights spent away from home by adults and by children accompanying them on tourism trips.

Spending

The estimated expenditure incurred relating to all tourism trips. This includes all expenditure by adults on the trip both for themselves and for other people for whom the adults paid (for example, children). This covers those costs incurred in advance of the trip, costs paid during the trip itself, and also any bills relating to the trip paid after returning home. Costs paid on behalf of the person taking the trip, for example by an employer paying the cost of a business trip, are also included.

Expenditure includes items such as package holidays, accommodation, travel to and from the destination and during the trip, services and advice, buying clothes, eating and drinking out, shopping, entertainment and other items relating to the trip.

Allocation of spending

When spending is reported by country of destination, all of the spending is allocated to the relevant country of destination. In reality, not all of the spending may take place in the country of destination. For example, travel costs or inclusive trip charges may be incurred in the country of origin rather than the country of destination. No attempt has been made in this report to adjust for this.

Where a trip involves overnight stays in more than one destination, the expenditure for the trip is allocated to each destination proportionally to the number of nights spent in each destination.

Holiday

'Holiday' indicates trips where the main reason for taking the trip is described by the respondent as "holiday, leisure or pleasure" (with no visiting friends or relatives element to the trip).

Total holiday (including VFR holiday)

'Total Holiday' includes trips where the main reason for taking the trip is described by the respondent as "holiday, leisure or pleasure" and also trips where the main reason for taking the trip is initially described as "visiting friends and relatives", but which on subsequent probing is also described as a holiday.

VFR

'Visiting friends and relatives' or 'VFR' is the term used for trips where the main reason for taking the trip is described as "visiting friends and relatives". It can be split further, into two sub-categories. VFR-holiday, is where the main reason for taking the trip is initially described as "visiting friends and relatives", but which on subsequent probing is also described as a holiday. VFR-other, is where the main reason for taking the trip is described as "visiting friends and relatives" mainly for some reason other than a holiday.

Business/work

'Business/work' trips are those trips where the main reason for taking the trip is described as "to do paid work/on business", "to attend a conference" or "to attend an exhibition, trade show or agricultural show".

Other purposes

This covers all trips for purposes other than holiday, VFR and business/work as described above. It includes trips where "travel/transport is my work" (such as those made by overnight delivery drivers), and trips made for educational, social, sporting and personal or family reasons (such as attending weddings and funerals, taking someone to university, and similar reasons).

Great Britain

Great Britain as a destination in this survey includes England, Scotland, Wales, the Isle of Man and the Channel Islands.

Commercial accommodation

Commercial accommodation is the total of serviced and self-catering rented accommodation. So it includes hotel, motel, guest house, farmhouse, bed & breakfast, and holiday camp/village with any meals provided. Rented flat /apartments, rented house/chalet/villa/bungalow/cottage without any meals provided, self-catering holiday camp/village, camping, towed caravan and static caravan which is not owned.

Serviced accommodation

Serviced accommodation includes hotel, motel, guest house, farmhouse, bed & breakfast, and holiday camp/village with any meals provided.

Total self-catering rented accommodation and caravan and camping

Total Self-catering rented accommodation and Caravan and Camping includes rented flat /apartment, rented house/chalet/villa/bungalow/cottage without any meals provided, self-catering holiday camp/village, camping, towed caravan and static caravan which is not owned.

Self-catering rented accommodation

Self-catering rented accommodation includes rented flat /apartment, rented house/chalet/villa/bungalow/cottage without any meals provided and self-catering holiday camp/village.

Caravan and camping accommodation

Caravan and camping accommodation includes camping, towed caravan, static caravan which is not owned and static caravan which is owned.

Other types of accommodation

Other types of accommodation cover all accommodation types not included under rented accommodation above. It includes friends' or relatives' home, static caravan which is owned, second home or timeshare which is owned, hostel, university or school, boat, sleeper cab of lorry/truck, transit and any other type of accommodation.

Personal transport

Personal transport includes own/friend's/firm's car, hired car, motorised caravan/camper/dormobile, motor cycle and bicycle.

Public transport

Public transport includes train, regular bus/coach, organised coach tour, plane, boat or ship.

Inclusive trip

Inclusive trip is defined in the questionnaire as "a package or inclusive trip – that is, where you paid a single price for accommodation plus some form of transport".

Type of location

The classification of type of location as 'seaside', 'large city/large town', 'small town' or 'countryside/village' is a subjective assessment made by the respondent by selecting from these four options.

Touring

A 'touring' trip is defined in the questionnaire as "a touring holiday, where you moved around spending nights in different places".

Children on trip

Children on trip means that at least one child aged up to 15 was part of the group for all or part of the trip.

Socio-economic group (social grade)

This classification is derived from the occupation of the Chief Income Earner in the respondent's home, and is based on the system used by the National Readership Survey (NRS). It is generally used in market research in the UK and consists of six social grades:

Grade	Occupation
A	Higher managerial, administrative or professional
B	Intermediate managerial, administrative or professional
C1	Supervisory or clerical, and junior managerial, administrative or professional
C2	Skilled manual workers
D	Semi and unskilled manual workers
E	State pensioners or widows (with no other earners in household), casual or lowest grade workers

It is important to note that this classification is actually based only on the adult respondent interviewed about the trip, rather than all people taking the trip. While technically this characteristic only relates to the individual, it can in practice be interpreted as applying to all people on the trip. Those on the trip will generally be people in the same household who would be therefore be allocated the same social grade.

Age of respondent

Information on age is obtained for the respondent being interviewed about the trip, but no information is obtained for other adults or children accompanying on the trip.

In tabulating the results, the characteristics of the individual reporting the trip are applied to other trip members, although in reality these other trip members will have different characteristics. Information on age characteristics must therefore be interpreted with caution.

Lifestage of respondent

'Single' includes widowed, separated, divorced and civil partnerships that have terminated. 'Married' includes married and living with partner. As with age, this information is based on the characteristics of the respondent being interviewed about the trip and is not available for the other trip members. The lifecycle characteristics of the respondent are applied to all trip members, although in reality their own characteristics will be substantially different. Information on lifecycle must therefore be interpreted with caution.

Regions

Regions of England, Scotland and Wales shown in this report are defined as follows:

England	
Cumbria	County of Cumbria
Northumbria	Northumberland, Durham, Tyne & Wear, Tees Valley
North West	Lancashire, Merseyside, Greater Manchester, Cheshire
Yorkshire	North Yorkshire, West Yorkshire, South Yorkshire, East Riding of Yorkshire, Kingston upon Hull, North Lincolnshire, North East Lincolnshire
Heart of England	Staffordshire, Shropshire, West Midlands, Warwickshire, Herefordshire, Worcestershire, Gloucestershire (except South Gloucestershire), Derbyshire, Leicestershire, Northamptonshire, Nottinghamshire, Rutland, Lincolnshire
East of England	Norfolk, Suffolk, Cambridgeshire, Essex, Bedfordshire, Hertfordshire
London	Greater London
South West	Cornwall, Devon, Somerset, Wiltshire, Western Dorset, South Gloucestershire
Southern	Hampshire, Isle of Wight, Eastern Dorset, Berkshire, Buckinghamshire, Oxfordshire
South East	Kent, Surrey, East Sussex, West Sussex

In most of the English level analysis, the above regional destinations are also combined, where appropriate, to allow analysis at a regional level.

- West Midlands
- East England
- East Midlands
- London
- North West
- North East
- South East
- South West
- Yorkshire

Scotland	
Grampian	Aberdeen City and Shire
Tayside	Dundee, Perth & Kinross, Angus
Edinburgh and East Central	Edinburgh, the Lothians, Fife, Clackmannanshire, Falkirk, Stirling
South of Scotland	Borders, Dumfries and Galloway
Glasgow and West Central	Glasgow, Renfrewshire, East Renfrewshire, Inverclyde, East and West Dunbartonshire, North South and East Ayrshire and North and South Lanarkshire
Highlands and Islands	including Argyll & the Islands, Caithness and Sutherland, Inverness and East Highlands, Lochaber, Moray, Orkney, Shetland, Skye and Wester Ross, and Innse Gall

Since 2007, the primary Scottish levels analysis has been at the newly defined macro-tourism areas:

- **Scotland – North** – (Highlands & Islands, Aberdeen & Grampian, Western and Northern Isles)
- **Scotland – West** – (Argyll, The Isles, Loch Lomond, The Trossachs + Glasgow & Clyde Valley, Ayrshire & Arran)
- **Scotland – East** – (Perthshire + Angus & Dundee + Kingdom of Fife + Edinburgh & Lothians)
- **Scotland – South** (Dumfries & Galloway + Scottish Borders),
- **Edinburgh**
- **Glasgow**

Wales	
North Wales	Anglesey, Conwy, Denbighshire, Flintshire, Wrexham, Gwynedd North (former Arfon and Dwyfor)
Mid Wales	Ceredigion, Powys, Gwynedd South (Meirionnydd)
South West Wales	Neath/Port Talbot, Carmarthenshire, Swansea, Pembrokeshire
South East Wales	Bridgend, Rhondda Cynon Taf, Merthyr Tydfil, Caerphilly, Blaenau Gwent, Torfaen, Vale of Glamorgan, Cardiff, Newport, Monmouthshire

Levels of statistical confidence

	Trips %	Nights %	Spend %
GB	2.5%	3.0%	3.6%
England	2.8%	3.2%	4.0%
Scotland	6.3%	8.1%	8.3%
Wales	5.3%	8.0%	9.1%

It must be emphasised that sampling variation is not the only possible source of error. Others include bias through non response and measurement errors caused by memory distortion and/or lack of knowledge of the respondent. These are not quantifiable and can affect the survey results. In particular it is often difficult for respondents to recall expenditure on trips with high levels of accuracy. Nevertheless, it is possible to state, for example, that assuming no bias, the true value of the number of GB trips in 2014 will lie in the range of plus or minus 2.5% of the estimate on 95% of occasions.

Great Britain – Resident population

This table describes the characteristics of adults resident in Great Britain which formed the basis for the weighting of the sample survey. These 2014 figures are the latest available.

Great Britain adult population

Total adult population		49484	Total adult population		49484
Age by sex			Government office regions		
Male 16-24	3601		North East		2115
Male 25-34	4284		North West		5640
Male 35-44	3935		Yorkshire & Humber		4275
Male 45-54	4227		East Midlands		3706
Male 55-64	3379		West Midlands		4449
Male 65-74	2739		East of England		4732
Male 75-84	1538		London		6598
Male 85+	502		South East		6884
			South West		4319
Female 16-24	3433		Wales		2451
Female 25-34	4084		Scotland		4315
Female 35-44	3979				
Female 45-54	4350		Presence of children		
Female 55-64	3525		Yes		14037
Female 65-74	2985		No		35447
Female 75-84	1960				
Female 85+	963		Social grade		
			AB		12570
Car ownership			C1		13858
1	20895		C2		10419
2+	18342		D		7656
0	10247		E		4981

Note: The values above were derived from:
A. Census 2011
B. 2010 based Population Projections for 2014
C. BARB Establishment Survey 2008 & 2012
